conclusions can be drawn from the proceedings 1 Much knowledge is available from both scientific observations and practical experience which could be used to improve the transport of livestock Methods of loading the construction of vehicles ships crates and aircraft could benefit from the application of existing knowledge It is less clear whether it is best to concentrate on disseminating existing knowledge by education and advice or to contemplate more regulations 2 Losses by down grading at slaughter can largely be attributed to the ways in which animals are transported and handled **Animals and the Law** Jordan Curnutt,2001-11-02 Offers a comprehensive overview of the legislation and legal issues surrounding animals Written by Jordan Curnutt *Animals and the Law* covers everything from the Silver Spring monkeys subjects in the first U S lab raided by police where criminal charges were filed against a scientist conducting federally funded research to sex with animals Among the subjects reviewed are kosher and Halal food restrictions mad cow disease and cattle cannibalism animals in laboratories and as entertainment in circuses zoos rodeos horse racing cockfighting and more Also included are appendixes of animal organizations cases statutes and regulations and an extensive bibliography **Meat Animals, Production, Disposition, Income** ,1981 **Protecting Animals Within and Across Borders** Charlotte E.
