Jewish Education from Antiquity to the Middle Ages George J. Brooke, Renate Smithuis, 2017-10-17 In Jewish Education from Antiquity to the Middle Ages fifteen scholars offer specialist studies on Jewish education from the areas of their expertise This tightly themed volume in honour of Philip S Alexander has some essays that look at individual manuscripts some that consider larger literary corpora and some that are more thematically organised Jewish education has been addressed largely as a matter of the study house the bet midrash Here a richer range of texts and themes discloses a wide variety of activity in several spheres of Jewish life In addition some notable non Jewish sources provide a wider context for the discourse than is often the case

Philo of Alexandria D.T. Runia, 2011-10-28 This volume prepared with the collaboration of the International Philo Bibliography Project is the third in a series of annotated bibliographies on the Jewish exegete and philosopher Philo of Alexandria It contains a listing of all scholarly writings on Philo for the period 1997 to 2006

Ancient Texts, Papyri, and Manuscripts ,2022-05-20 This volume honors Prof James R Royse on the occasion of his seventy fifth birthday and celebrates his scholarly achievement in the fields of New Testament textual criticism and Philonic studies An introductory section contains a biographical notice on the honoratus and a complete list of his scholarly publications Part one contains nine articles on New Testament textual criticism focusing on methodological issues difficult passages and various textual witnesses Part two presents eight studies on the thought writings textual record

and reception of Philo of Alexandria This wide ranging collection of articles will introduce the reader to new findings in the scholarly fields to which Prof Royse continues to make such an outstanding contribution *Philo of Alexandria: an Annotated Bibliography 2007-2016* David T. Runia, 2021-11-08 This volume is a further continuation of the annotated bibliographies on the writings and thought of the Jewish exegete and philosopher Philo of Alexandria following those on the years 1937 1986 published in 1988 1987 1996 published in 2000 and 1997 2012 published in 2012 Prepared in collaboration with the International Philo Bibliography Project it contains a complete listing of all scholarly writings on Philo for the period 2007 to 2016 Part One lists texts translations commentaries etc 75 items Part Two contains critical studies 1143 items In Part Three additional items up to 2006 are presented 27 items In all cases a summary of the contents of the contribution is given Six indices including a detailed Index of subjects complete the work *The Oxford Handbook of Byzantine Literature* Stratis Papaioannou, 2021 In twenty five chapters by leading scholars this volume propagates a nuanced understanding of Byzantine literature highlighting key problems and presenting basic research tools for an audience of specialists and non specialists **Design Discourse in Abrahamic Traditions** E.V.R. Kojonen, Shoaib A. Malik, 2024-11-11 Design Discourse in Abrahamic Traditions reconnects discussion of design arguments to its Jewish Christian and Muslim history The ancient idea that there is evidence of purpose in nature remains one of the most debated topics in science and religion but also one with great potential for inter religious and interdisciplinary dialogue This volume revitalizes current discussion by retrieving perspectives from the Abrahamic history of design arguments and engaging them with contemporary ideas Beginning with the encounter ancient philosophy and creation beliefs the book proceeds to delve deep into issues ranging from the nature of theological and teleological language to the implications of evolution and evil This rich exploration showcases how far from being irrelevant in a post Humean post Darwinian world design arguments continue to merit both popular level and academic attention The volume will be of particular interest to scholars working at the intersection of science and religion philosophers of religion and theologians *The Oxford Handbook of Johannine Studies* Judith M. Lieu, Martinus C. de Boer, 2018-07-19 The contribution of the Johannine literature to the development of Christian theology and particularly to Christology is uncontested although careful distinction between the implications of its language especially that of sonship in a first century Jewish context and in the subsequent theological controversies of the early Church has been particularly important if not always easily sustained Recent study has shaken off the weight of subsequent Christian appropriation of Johannine language which has sometimes made readers immune to the ambiguities and challenging tensions in its thought The Oxford Handbook of Johannine Studies begins with chapters concentrating on discussions of the background and context of the Johannine literature leading to the different ways of reading the text and thence to the primary theological themes within them before concluding with some discussion of the reception of the Johannine literature in the early church Inevitably given their different genres and levels of complexity some chapters pay most if not all attention to the Gospel whereas others are more

able to give a more substantial place to the letters All the contributors have themselves made significant contributions to their topic They have sought to give a balanced introduction to the relevant scholarship and debate but they have also been able to present the issues from their own perspective The Handbook will help those less familiar with the Johannine literature to get a sense of the major areas of debate and why the field continues to be one of vibrant and exciting study and that those who are already part of the conversation will find new insights to enliven their own on going engagement with these writings
