Man, Myth and Museum Eurwyn Wiliam, 2023-07-15 This is the first book to critically examine the professional work of the pioneer of open air museums in Britain and the self proclaimed founder of the Welsh Folk Museum at St Fagans and a major figure in Welsh cultural life This book places Peate's life in the context of Welsh history and assesses his impact on helping to create a particular view of Welsh culture placing great emphasis on the importance of the Welsh speaking rural craftsman and ignoring the contribution of industry to Welsh life It makes extensive use of quotation synopsis and translation for the first time giving non Welsh speakers access to his Welsh language publications about museums and folk life

Constructing Industrial Pasts Stefan Berger, 2019-09-01 Since the 1960s nations across the developed world have been profoundly shaped by deindustrialization In regions in which previously dominant industries faced crises or have disappeared altogether industrial heritage offers a fascinating window into the phenomenon's cultural dimensions As the contributions to this volume demonstrate even as forms of industrial heritage provide anchors of identity for local populations their meanings remain deeply contested as both radical and conservative varieties of nostalgia intermingle with critical approaches and straightforward apologies for a past that was often full of pain exploitation and struggle

An Introduction To Scottish Ethnology Alexander Fenton, Margaret A. Mackay, 2013-08-06 The publication of *An Introduction to Scottish Ethnology* sees the completion of the fourteen volume *Scottish Life and Society* series originally conceived by the eminent ethnologist Professor Alexander Fenton The series explores the many elements in Scottish history language and culture which have shaped the identity of Scotland and Scots at local regional and national level placing these in an international context Each of the thirteen volumes already published focuses on a particular theme or institution within Scottish society This introduction provides an overview of the discipline of ethnology as it has developed in Scotland and more widely the sources and methods for its study and practical guidance on the means by which it can be examined within its constituent genres based on the experience of those currently working with ethnological materials Theory and practice are presented in an accessible fashion making it an ideal companion for the student the scholar and the interested amateur

alike *Folk Housing in Middle Virginia* Henry Glassie, 2025-03-14 In this fascinating analysis of eighteenth century vernacular houses of Middle Virginia Henry Glassie presents a revolutionary and carefully constructed methodology for looking at houses and interpreting from them the people who built and used them Glassie believes that all relevant historical evidence unwritten as well as written must be taken into account before historical truth can be found He is convinced that any study of man's past must make use of nonverbal and verbal evidence since written history the story of man as recorded by the intellectual elite does not tell us much about the everyday life thoughts and fears of the ordinary people of the past Such people have always been in the majority however and a way has to be found to include them in any valid history In *Folk Housing in Middle Virginia* Glassie admirably sets forth such a way The people who lived in Middle Virginia in the eighteenth century are almost unknown to history because so little has been written about them After Glassie selected the area roughly Goochland and Louisa counties for study he selected a representative part of the countryside recorded all the older houses there developed a transformational grammar of traditional house designs and examined the area's architectural stability and change Comparing the houses with written accounts of the period he found that the houses became more formal and less related to their environment at the same time as the areas established political economic and religious institutions were disintegrating It is as though the builders of the houses were deliberately trying to impose order on the surrounding chaotic world Previous orthodox historical interpretations of the period have failed to note this Glassie has provided new insights into the intellectual and social currents of the period and has rescued a heretofore little known people from historiographical oblivion Combining a fresh perceptive approach with a broad interdisciplinary body of knowledge Glassie has made an invaluable breakthrough in showing the way to understand the people of history who have left their material things as their only legacy The Customs and Traditions of Wales Trefor M. Owen, 2016-04-20 Trefor M Owen's seminal work educates enlightens and entertains with a far reaching yet accessible text which paints a colourful and comprehensive portrait of a nation's rich folk culture *The Customs and Traditions of Wales* is an illuminating and engrossing insight into a subject that continues to unfold and develop in contemporary life Despite an increasingly globalised society that has transformed local communities folk customs are still practised and enjoyed the world over as people combine modern day and historical rituals and embrace opportunities to learn about their past and Owen's influential study has maintained its relevance as customs change and evolve **The Irish Folklore Commission 1935-1970** Mícheál Briody, 2008-06-16 Between 1935 and 1970 the Irish Folklore Commission Coimisi n B aloideas ireann under funded and at great personal cost to its staff assembled one of the world's largest folklore collections This study draws on the extensive government files on the Commission in the National Archives of Ireland and on a wide variety of other primary and secondary sources in order to recount and assess the work and achievement of this world famous institute The cultural linguistic political and ideological factors that had a bearing on the establishment and making permanent of the Commission and that impinged on many aspects of its work are here

elucidated The genesis of the Commission is traced and the vision and mission of its Honorary Director S amus Duilearga James Hamilton Delargy is outlined The negotiations that preceded the setting up of the Commission in 1935 as well as protracted efforts from 1940 to 1970 to place it on a permanent foundation are recounted and examined at length All the various collecting programmes and other activities of the Commission are described in detail and many aspects of its work are assessed and in some cases reassessed This study also deals with the working methods and conditions of employment of the Commission s field and Head Office staff as well with S amus Duilearga s direction of the Commission
