Studies In The Philosophy Of History:

Studies in the Philosophy of History George H. Nadel, 1965 *History and Theory*, 1965 *Vico and Herder : Two Studies in the Philosophy of History* Berlin, Isaiah, 1976 **The Philosophy of Historical Case Studies** Tilman Sauer, Raphael Scholl, 2016-05-24 This volume collects reflections on the role of philosophy in case studies in the history of science Case studies have played a prominent role in recent history and philosophy of science They have been used to illustrate question explore or explicate philosophical points of view Even if not explicitly so historical narratives are always guided by philosophical background assumptions But what happens if different philosophies lead to different narratives of the same historical episodes Can historical case studies decide between competing philosophical viewpoints What are the criteria that a case study has to fulfill in order to be philosophically relevant Bringing together leading practitioners in the fields of history and philosophy of the physical and the life sciences this volume addresses this methodological problem and proposes ways of rendering explicit philosophical assumptions of historical work *History and Theory*, 2000 **Towards a Revival of Analytical Philosophy of History** Krzysztof Brzechczyn, 2017-11-06 Towards a Revival of Analytical Philosophy of History Around Paul A Roth's Vision of Historical Sciences presents the state of the art in the philosophy of history The purpose of this book is to discuss the revival of analytical philosophy of history proposed by Paul A Roth a world known analytical philosopher of the social sciences and the humanities The first four papers outline the reasons for the decline of philosophy of history its present phase of development and its possible future The other authors discuss important questions of this field of research including the ontological status of the past the epistemological assumptions of historical research the explanatory dimensions of the narrative In the last group of papers the authors apply some of Roth's theoretical ideas within their own fields of research Contributors are Krzysztof Brzechczyn Nancy D Campbell Serge Grigoriev G za K llay Piotr Kowalewski Jouni Matti Kuukkanen Chris Lorenz Herman Paul Dawid Rogacz Paul A Roth Laura Stark Stephen Turner Rafa Pawe Wierzechowski and Eugen Zele k **Philosophy of History** M.C. Lemon, 2003-08-29 Philosophy of History is an essential introduction to a vast body of writing about history from classical Greece and Rome to the modern world M C Lemon maps out key debates and central concepts of philosophy of history placing principal thinkers in the context of their times and schools of thought Lemon explains the crucial differences between speculative philosophy as an enquiry into the content of history and analytic philosophy of history as relating to the methods of history The first two parts of the book trace each of these traditions whereas the third part revisits both in the light of recent contributions to the discipline This guide provides a comprehensive survey of historical thought since ancient times Its clear terminology and lucid argument will make it an invaluable source for students and teachers alike *Philosophy of African American Studies* Stephen Ferguson, 2015-09-16 In this ground breaking book Stephen C Ferguson addresses a seminal question that is too often ignored What should be the philosophical basis for African American studies The volume explores philosophical issues

and problems in their relationship to Black studies Ferguson shows that philosophy is not a sterile intellectual pursuit but a critical tool to gathering knowledge about the Black experience Cultural idealism in various forms has become enormously influential as a framework for Black studies Ferguson takes on the task of demonstrating how a Marxist philosophical perspective offers a productive and fruitful way of overcoming the limitations of idealism Focusing on the hugely popular Afrocentric school of thought this book s engaging discussion shows that the foundational arguments of cultural idealism are based on a series of analytical and historical misapprehensions In turn Ferguson argues for the centrality of the Black working class both men and women to Black Studies

Integrating History and Philosophy of Science Seymour Mauskopf,Tad Schmaltz,2011-09-10 Though the publication of Kuhn s Structure of Scientific Revolutions seemed to herald the advent of a unified study of the history and philosophy of science it is a hard fact that history of science and philosophy of science have increasingly grown apart Recently however there has been a series of workshops on both sides of the Atlantic called HPS intended to bring historians and philosophers of science together to discuss new integrative approaches This is therefore an especially appropriate time to explore the problems with and prospects for integrating history and philosophy of science The original essays in this volume all from specialists in the history of science or philosophy of science offer such an exploration from a wide variety of perspectives The volume combines general reflections on the current state of history and philosophy of science with studies of the relation between the two disciplines in specific historical and scientific cases

Turkish Studies in the History and Philosophy of Science G. Irzik,Güven Güzeldere,2005-11-10 As an academic discipline the philosophy and history of science in Turkey was marked by two historical events Hans Reichenbach s immigrating to Turkey and taking a post between 1933 and 1938 at Istanbul University prior to his tenure at UCLA and Aydin Sayili s establishing a chair in the history of science in 1952 after having become the first student to receive a Ph D under George Sarton at Harvard University Since then both disciplines have flourished in Turkey The present book which contains seventeen newly commissioned articles aims to give a rich overview of the current state of research by Turkish philosophers and historians of science Topics covered address issues in methodology causation and reduction and include philosophy of logic and physics philosophy of psychology and language and Ottoman science studies The book also contains an unpublished interview with Maria Reichenbach Hans Reichenbach s wife which sheds new light on Reichenbach s academic and personal life in Istanbul and at UCLA
