Bulloch,2018-01-13 Excerpt from Studies on the d104 of Shakespeare With Numerous Emendations and Appendices The expression on our title page d104 of Shakespeare is at best a vague and often a very misleading one Who can say truly where or what it is Though the material now a days for such a purpose is more acces sible than ever The time may come when the English speaking populations of the world will have in their hands such a text as will satisfy every reasonable de mand admitting only as curiosities some of the most glaring errors which the original copies present and leaving to the intelligent reader the choice of pondering over these if he has a mind or passing them by undisturbed One expression in the Preface to the first volume of the Cambridge Shakespeare came home to me with a start for which I was hardly prepared when I read of the intention of the editors in their work to give the reader in a compact form a complete view of the existing materials out of which the text has been constructed or may be emended And truly their labour has not been misapplied About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

Studies on the Text of Shakespeare John Bulloch,2014-08-03 From the INTRODUCTION THE expression on our title page Text of Shakespeare is at best a vague and often a very misleading one Who can say truly where or what it is though the material now a days for such a purpose is more accessible than ever The time may come when the English speaking populations of the world will have in their hands such a text as will satisfy every reasonable demand admitting only as curiosities some of the most glaring errors which the original copies present and leaving to the intelligent reader the choice of pondering over these if he has a mind or passing them by undisturbed One expression in the Preface to the first volume of

the Cambridge Shakespeare came home to me with a start for which I was hardly prepared when I read of the intention of the editors in their work to give the reader in a compact form a complete view of the existing materials out of which the text has been constructed or may be emended And truly their labour has not been misapplied Some ten years ago in noticing the conclusion of the Cambridge Shakespeare I wrote as follows In these nine volumes with their 5500 pages and 55 000 notes are the labours of nearly six years embodied and presenting a complete summary of the variations of all the texts and the conjectural emendations of all the editors and critics of the last hundred and fifty years If it cannot be said that we have yet got a perfect text we have all the materials from which a more perfect one may be elaborated These six years labours involved a thorough examination of 276 distinct publications from Holinshed s Chronicles in 1577 to Mr Gerald Massey s elaborate work on the Sonnets published in 1866 In taking leave of their work the learned editors after alluding to the textual imperfections and uncertainties which still exist and to a conviction that passages not generally suspected of corruption have not been printed as they were first written go on to say that these blemishes cannot be entirely removed even by the most brilliant conjectural criticism because the materials are wanting This last statement has rather a disheartening tendency but we suspect that it refers more to the second class passages not generally suspected of corruption and this view of the case is sufficient warrant in still endeavouring to do something in the removal of acknowledged imperfections

Studies on the Text of Shakespeare Bulloch John 1805-1882,2013-01 Unlike some other reproductions of classic texts 1 We have not used OCR Optical Character Recognition as this leads to bad quality books with introduced typos 2 In books where there are images such as portraits maps sketches etc We have endeavoured to keep the quality of these images so they represent accurately the original artefact Although occasionally there may be certain imperfections with these old texts we feel they deserve to be made available for future generations to enjoy
