Morgan Rooney

Studies Voltaire 18th Century Volume 207:

The French Revolution Debate and the British Novel, 1790-1814 Morgan Rooney, 2013 This study examines how debates about history during the French Revolution informed and changed the nature of the British novel between 1790 and 1814 During these years intersections between history political ideology and fiction as well as the various meanings of the term history itself were multiple and far reaching Morgan Rooney elucidates these subtleties clearly and convincingly While political writers of the 1790s Burke Price Mackintosh Paine Godwin Wollstonecraft and others debate the historical meaning of the Glorious Revolution as a prelude to broader ideological arguments about the significance of the past for the present and future novelists engage with this discourse by representing moments of the past or otherwise vying to enlist the authority of history to further a reformist or loyalist agenda Anti Jacobin novelists such as Charles Walker Robert Bisset and Jane West draw on Burkean historical discourse to characterize the reform movement as ignorant of the complex operations of historical accretion For their part reform minded novelists such as Charlotte Smith William Godwin and Maria Edgeworth travesty Burke's tropes and arguments so as to undermine and then redefine the category of history As the Revolution crisis recedes new novel forms such as Edgeworth's regional novel Lady Morgan's national tale and Jane Porter's early historical fiction emerge but historical representation largely the legacy of the 1790s novel remains an increasingly pronounced feature of the genre Whereas the representation of history in the novel Rooney argues is initially used strategically by novelists involved in the Revolution debate it is appropriated in the early nineteenth century by authors such as Edgeworth Morgan and Porter for other often related ideological purposes before ultimately developing into a stable nonpartisan aestheticized feature of the form as practiced by Walter Scott The French Revolution Debate and the British Novel 1790 1814 demonstrates that the transformation of the novel at this fascinating juncture of British political and literary history contributes to the emergence of the historical novel as it was first realized in Scott's Waverley 1814 **Mary Wollstonecraft's Social and Aesthetic Philosophy** S. Bahar, 2002-02-07 Mary Wollstonecraft's Social and Aesthetic Philosophy examines attempts to revise representations of women to give them a more active role in public life Combining history of ideas with close textual reading to position her in relation to other eighteenth century writers this book demonstrates how she is directly engaged in re thinking key concepts in moral aesthetic and social philosophy particularly where women are concerned Bahar insists that Wollstonecraft's political claims cannot be separated from her desire to develop more convincing aesthetic representations of women [Joan of Arc in French Art and Culture \(1700-1855\)](#) Nora M. Heimann, 2017-11-30 In her meticulous and wide ranging study Nora M Heimann follows the metamorphosis of Joan of Arc's posthumous representation during the years in which her image ascended from relative obscurity as a minor provincial figure in the middle ages through her treatment as a figure of political satire in the eighteenth century to her ultimate emergence as an image of piety and sanctity in the mid nineteenth century Offering the first scholarly art historical and cultural analysis

of the origins of the modern Joan of Arc cult she takes on the challenge of charting as no previous critic has why and how the Maid of Orléans has been all things to such a diverse public through the ages particularly during the rapid shifts in political regimes that came in the wake of the French Revolution Joan of Arc's image has shown a protean capacity to embody a vast and often contradictory range of qualities from martial ascendancy to vulnerable piety from maidenly purity to transgressive androgyny from the power of the people to the divine right of kings Heimann makes a persuasive case for this enduringly resonant woman as the only figure in French culture to be warmly embraced simultaneously by republicans monarchists feminists and neo fascists alike In its recounting of the iconographic fortunes of this remarkable woman during her transformation from an image of satire to one of sanctity *Joan of Arc in French Art and Culture 1700-1855* offers an illustrated interdisciplinary depiction of the relationship between art and politics that will appeal not only to art historians but also to those working in literature women's studies cultural studies intellectual history and religious history

Eighteenth Century French Novelists and the Novel Lawrence W. Lynch, 1979 Examines the theoretical writings of the major French novelists of the eighteenth century Clio Medica. Acta Academiae Internationalis Historiae Medicinae. Vol. 19, 2020-01-29 As periodical of the International Academy of the History of Medicine this Clio Medica volume contains 19 papers Disrupted Patterns, 2022-03-07 This collection of essays explores the significance of modern chaos theory as a new paradigm in literary studies and argues for the usefulness of borrowings from one discipline to another Its thesis is that external reality is real and is not merely a social construct On the other hand this volume reflects the belief that literature as a social and cultural construct is not unrelated to that external reality The authors represented here furthermore believe that learning to communicate across disciplinary divides is worth the risk of looking silly to purists and dogmatists In applying a contemporary scientific grid to a bygone era the authors play out Steven Weinberg's exhortation to mind the clues to the past that cannot be obtained in any other way It is of course necessary to get the science right yet the essays in this collection do not seek to do science but rather to suggest that science and literature often share common assumptions and realities Thus there is no attempt to legitimize literary study through the adoption of a scientific approach Interaction between the disciplines requires mutual respect and a willingness to investigate the broader implications of scientific research Consequently this volume will be of interest to students and scholars of the long eighteenth century whether the focus is on England Locke Milton Radcliffe Lewis France Crillon Diderot Marivaux Montesquieu or Germany Kant Moritz Goethe Fr Schlegel Moreover given its multiple thrust in employing mythological philosophical and scientific notions of chaos this volume will appeal to historians and philosophers of the European Enlightenment as well as to literary historians The volume ultimately aspires to promote communication across centuries and across disciplines *Defoe's Footprints* Robert M. Maniquis, Carl Fisher, 2009-01-01 In Defoe's Footprints essays by prominent scholars of eighteenth century literature salute Maximilian E Novak's influence upon the study of Daniel Defoe Best known today as the author of Robinson Crusoe

Defoe was a prolific writer in the late seventeenth and early eighteenth centuries who wrote novels essays pamphlets and poems Widely extending Novak s perspectives this volume explores Defoe s place in the English novel and in literary developments of mimesis realism and popular mythology The contributors locate Defoe in new ways within the complex symbolism and discourse of a turbulent world of burgeoning capitalism Protestantism imperialism and economic speculation With attention to Defoe s neglected writings as well as to his important works this volume uncovers his distance from and influence on modern literature paying tribute to Maximillian E Novak by presenting new ideas about and new readings of Daniel Defoe

The Shaping of Jewish Identity in Nineteenth-Century France Jay R. Berkovitz,2018-02-05 Focusing on the ideology of regeneration Jay Berkovitz traces the social economic and religious struggles of nineteenth century French Jews Nineteenth century French Jewry was a community struggling to meet the challenges of emancipation and modernity This struggle with its origins in the founding of the French nation constitutes the core of modern Jewish identity With the Revolution of 1789 came the collapse of the social political and philosophical foundations of exclusiveness forcing French society and the Jews to come to terms with the meaning of emancipation Over time the enormous challenge that emancipation posed for traditional Jewish beliefs became evident In the 1830s a more comprehensive ideology of regeneration emerged through the efforts of younger Jewish scholars and intellectuals A response to the social and religious implications of emancipation it was characterized by the demand for the elimination of rituals that violated the French conceptions of civilization and social integration a drive for greater administrative centralization and the quest for inter communal and ethnic unity In its various elements regeneration formed a distinct ideology of emancipation that was designed to mediate Jewish interaction with French society and culture Jay Berkovitz reveals the complexities inherent in the processes of emancipation and modernization focusing on the efforts of French Jewish leaders to come to terms with the social and religious implications of modernity All in all his emphasis on the intellectual history of French Jewry provides a new perspective on a significant chapter of Jewish history
