

STUDIES IN DIPLOMACY AND STATECRAFT

By
G. P. GOOCH, D.LITT., F.B.A.

HOW nations and statesmen have acted or ought to act their general, particularly in the field of foreign affairs, in the varied course of the two centuries, old and new, collected in this Volume.

The first two deal with the development of the European system from the foundation of the Habsburgian Empire in 1551 to the outbreak of war in 1914, as revealed by the opening of the archives of the Great Powers, with special reference to the diplomacy of Metetrach, Cavour, Bismarck and Gladstone-Victoria.

The third discusses the vacillations of British foreign policy between the two world wars and its efforts to avert a third catastrophe.

The fourth is a summary of the diplomacy of some of nations who have made history, from Babylon, the Ming and Empires in the sixteenth century, to Japan and Mussolini.

The fifth analyses the ideology of the French Revolution, and illustrates its far-reaching influence on other countries and on later times.

The sixth deals with the relations between private and public morality and reveals some of the practical strategies in foreign affairs.

The seventh summarizes the decisions of the watershed congresses of the nineteenth century, as embodied in Bismarck and revised in the various international treaties of our own day.

Studies In Diplomacy Statecraft:

Studies in Diplomacy and Statecraft T. G. Otte, 2022-03-30 The chapters in this edited volume individually and collectively pay homage to Erik Goldstein's contribution to contemporary scholarship in the fields of international history, diplomatic studies and international security. The book offers insights into the rich tapestry of past and present international relations with differing emphases on political, military and cultural aspects. While some of the chapters explore the twentieth century British foreign policy apparatus and the different networks of people at work within it, others examine the deeper intellectual and other currents that shaped trans Atlantic ties in the nineteenth and twentieth centuries. Geopolitics in a historiographical perspective and with a focus on Europe, the Eastern Mediterranean and East Asia forms another important strand of this collection. All chapters explore periods of wider systemic change in international politics and thus offer reflections on the essential continuities and discontinuities in great power relations. The chapters in this book were originally published as a special issue of the journal *Diplomacy Statecraft*. **Studies in diplomacy and statecraft** George P. Gooch, 1969 *Studies in Diplomacy and Statecraft* George Peabody Gooch, 1969 *Diplomatic Theory from Machiavelli to Kissinger* G. Berridge, M. Keens-Soper, T. Otte, 2001-03-23 This book offers an introductory guide for students to four centuries of diplomatic thought. Since diplomacy as we know it was created during the Renaissance in Italy, a number of major figures have reflected on the place of diplomacy in foreign affairs and the problems associated with its pursuit. These include statesmen, international lawyers and historians, most of whom had experience as diplomats of the first or second rank. This book examines the thought of some of the most important of them, from Niccol Machiavelli in the early sixteenth century to Henry Kissinger in the late twentieth century. **Hand of the prince** Pablo de Orellana, 2025-03-18 This book is dedicated to how diplomacy makes decisions and trades in knowledge. It proposes an approach to examine how diplomatic knowledge production describes what diplomats see, how these descriptions develop, and whether they were convincing to one's own policymakers or even those of other actors. These descriptions are vital actors that can be inserted into global categories: Communism or Terrorism that bear significant security, relational and policy consequences. Diplomacy and policy constitute the world we inhabit based on what policymakers made of descriptions, assessments and analysis. Such is the power of knowing who we and the others are. **Institutional Roots of India's Security Policy** Milan Vaishnav, 2024-02-27 In recent years, India has asserted its desire not simply to be a balancing power but to become a leading power on the world stage. As India's economic development has steadily progressed, so too have its foreign policy and security ambitions. However, India's ability to sustain high rates of economic growth at home and project power overseas rests on unsteady state capacities. Despite widespread concerns over the severe institutional constraints that India faces, there is a lack of scholarly research on the administrative and organizational effectiveness of India's security institutions. Myriad inadequacies related to both procedure and personnel continue to hamper the Indian state's ability to perform one of its most

essential functions protecting Indians from security threats at home and abroad Institutional Roots of India's Security Policy aims to deconstruct and interrogate disparities in India's security institutions through high quality analytic examinations of more than a dozen foreign policy and national security institutions spread across four domains the armed services intelligence border and internal security and police and investigative agencies A one stop resource on India's security institutions this volume demystifies secretive institutions that have long eluded careful scrutiny including India's paramilitary forces the Intelligence Bureau IB the Research and Analysis Wing RAW and the Central Bureau of Investigation CBI

Russia's Cultural Statecraft Tuomas Forsberg, Sirke Mäkinen, 2021-11-04 This book focusses on Russia's cultural statecraft in dealing with a number of institutional cultural domains such as education museums and monuments high arts and sport It analyses to what extent Russia's cultural activities abroad have been used for foreign policy purposes and perceived as having a political dimension Building on the concept of cultural statecraft the authors present a broad and nuanced view of how Russia sees the role of culture in its external relations how this shapes the image of Russia and the ways in which this cultural statecraft is received by foreign audiences The expert team of contributors consider what choices are made in fostering this agenda how Russian state authorities see the purpose and limits of various cultural instruments to what extent can the authorities shape these instruments what domains have received more attention and become more politicised and what fields have remained more autonomous The methodological research design of the book as a whole is a comparative case study comparing the nature of Russian cultural statecraft across time target countries and diverse cultural domains It will be of interest to scholars and students of Russian foreign policy and external relations and those working on the role of culture in world politics The Metamorphosis of War, 2012-01-01 In the last few decades the practice purpose and the very language of warfare have been radically transformed This volume mobilizes the resources of a range of disciplines across the social sciences and humanities in combination with the insights of military practitioners to understand the metamorphosis of war

The Oxford Handbook of Foreign Policy Analysis Juliet Kaarbo, Cameron G. Thies, 2024 The Oxford Handbook of Foreign Policy Analysis provides an inclusive and forward looking assessment of this subfield Edited and written by a team of world class scholars it sets the agenda for future research in FPA and in IR *The Human Terrain System* Christopher J. Sims, 2015 The Human Terrain System embedded civilians primarily in brigade combat teams BCTs in Iraq and Afghanistan between 2007 and 2014 to act as a collection and dispersal mechanism for sociocultural comprehension Set against the backdrop of the program's evolution the experiences of these social scientists clarifies the U S Army's decision to integrate social scientists at the tactical level in conflict Based on interviews program documents material from Freedom of Information Act requests and secondary sources this book finds a series of limiting factors inhibiting social science research at the tactical level common to both Iraq and Afghanistan Complexity in integrating civilians into the military decision making cycle in creating timely research with a high level of fidelity and in making granular research that

resonated with brigade staff all contributed to inhibiting the overall effect of the Human Terrain System Yet while high operational tempo in contested spaces complicates social science research at the tactical level the author argues that there is a continued requirement for a residual capability to be maintained by the U S Army Related items Other resources produced by the Strategic Studies Institute US Army War College can be found here <https://bookstore.gpo.gov/agency/1609> Weapon of Choice U S Army Special Operations Forces in Afghanistan can be found here https://bookstore.gpo.gov/products/sku/008_029_00431_3 Counterinsurgency Leadership in Afghanistan Iraq and Beyond can be found here https://bookstore.gpo.gov/products/sku/008_046_00274_6 Surging South of Baghdad The 3d Infantry Division and Task Force MARNE in Iraq 2007 2008 can be found here https://bookstore.gpo.gov/products/sku/008_029_00522_1 Iraq and Persian Gulf Wars collection can be found here https://bookstore.gpo.gov/catalog/us/military/history/battles/wars/iraq/persian_gulf_wars Training Humans for the Human Domain can be found here https://bookstore.gpo.gov/products/sku/008_000_01173_7 Paid to Perform Aligning Total Military Compensation With Talent Management can be found here <https://bookstore.gpo.gov/node/49300/edit> The Effective Use of Reserve Personnel in the U S Military Lessons From The United Kingdom Reserve Model can be found at this link https://bookstore.gpo.gov/products/sku/008_000_01100_1 Afghanistan War collection can be found here https://bookstore.gpo.gov/catalog/us/military/history/wars/conflicts/afghanistan_war
