Studio Europe:

The Studios of Europe Henry Baden Pritchard, 1882 European Film Industries Anne Jäckel, 2019-07-25 In what kind of state is the European film business This study is the first in a series that provides an accessible understanding of how the world's contemporary screen industries function It looks at all the factors in play from government regulation to the marketing strategies behind an international success like *Run Lola Run* Lola Rennt Anne Jackel evaluates how Europe's film industries operate their working practices and the region's place within the global business of cinema Exploring trends in production distribution and exhibition the book considers a range of national and pan-regional developments Key areas of critical debate are highlighted including private and public financing co-production film policy links between the film and television industries and the threats to art cinema from within and without Europe *American Cinematographer*, 1924

The International Studio Charles Holme, Guy Eglinton, Henry James Whigham, William Bernard McCormick, Peyton Boswell, 1920 *Digital Business Models in Healthcare* Matthias Puls, David Matusiewicz, Roberto Ascione, 2025-10-30 Digital business models in the healthcare sector are evolving rapidly fundamentally reshaping traditional ways of working within organizations The digital transformation will be a core challenge for the healthcare industry in the coming decades prompting key players to confront critical questions such as What new digital business models can we develop Will our company in its current form still be viable tomorrow If so how will we generate revenue in the future How should we position ourselves to navigate both the challenges and opportunities ahead In this context organizational and personal factors are crucial alongside financial regulatory and ethical considerations all of which play a central role in shaping the future of healthcare businesses This practical guide offers readers an up-to-date perspective on the healthcare industry particularly in the context of digital transformation It addresses critical questions surrounding the establishment of digital health companies including key success factors regulatory frameworks financing and more At the heart of the book are engaging interviews and profiles of experts founders and key supporters within the digital health start-up ecosystem As digitalization continues to profoundly reshape healthcare new digital business models will play a pivotal role This book serves as both a companion and a source of inspiration for those navigating or aspiring to enter these emerging fields Democracy Without Politics in EU Citizen Participation Alvaro Oleart, 2023-10-30 How does the dominant understanding of the democratic subject in the EU and of democracy more broadly shape the EU's democratic innovations on citizen participation What are the politically and normatively preferable alternatives both in terms of the conceptualisation of the democratic subject in the EU and in the ensuing political practices The book addresses these questions combining a political theory with a political sociology perspective contrasting the democracy without politics approach of the EU in the context of the Conference on the Future of Europe with that of ongoing transnational activist processes In doing so it develops an agonistic alternative to the people's as the political imaginary of democracy in the EU which is based on the idea of the decolonial multitude Thus the book puts

forward a diagnosis of current debates on EU democratic legitimacy as well as proposing an alternative **Tracing the Politicisation of the EU** Taru Haapala,Álvaro Oleart,2021-11-02 Departing from the idea that political controversies are embedded in the very framework of European integration this volume focuses on the relationship between politicisation and European democracy The contributors to this edited volume trace the various ways of understanding politicisation before and beyond the 2019 European elections The aim is to offer constructive reinterpretations of the concept for further research in the field Encompassing different approaches the book shows a plurality of perspectives and provides innovative analytical tools to make sense of the phenomenon of politicisation in the EU context Assuming that EU politicisation can be seen both as vice and virtue depending on the way in which it takes place the authors analyse under what conditions it has a positive or negative influence over European democracy Emphasising that scholars ought to be aware of the normative assumptions underlying the conceptualisation of politicisation the book illustrates how many of the features in European politics that were intensified during the Covid 19 pandemic were already present earlier Tracing the Politicisation of the EU will be of interest to students and scholars in EU Studies Comparative Politics Media and Communication Political Theory and Political Sociology **The Unfinished History of European Integration** Koen Zon,Matthew Broad,Aleksandra Komornicka,Paul Reef,Alessandra Schimmel,2025-10-01 The Unfinished History of European Integration is a companion to the history of the European Union From the aftermath of the First World War to the EU of 27 member states and Russia s invasion of Ukraine it guides the reader past the main events crucial sites and key actors that shaped the EU we know today How did it evolve from a market project to a geopolitical force what explains the expansion of its membership institutions policies and the resistance to this growth and why does it function as it does This book provides more than just a chronological account of over seventy years of European integration It also shows how observers past and present have made sense of the EU The Unfinished History of European Integration is therefore a unique introduction for readers with different disciplinary backgrounds to understanding the EU If over seventy years of European integration have taught us anything it is that fundamental crises as well as moments of rapid institutional change have been constants in its history American Representations of Post-Communism Andaluna Borcila,2014-07-11 With the televised events of 1989 territories of Eastern and Central Europe that had been marked as impenetrable and inaccessible to the Western gaze exploded into visibility As the narratives of the Cold War crumbled new narratives emerged and new geographies were produced on and by American television Using an understudied archive of American news broadcasts and tracing their flashes and echoes through travel guides and narratives of return written by Eastern European Americans this book explores American ways of seeing and mapping communism s disintegration and the narratives articulated around post communist sites and subjects
