Culture and Meaning in Health Services Research Elisa J Sobo, 2016-06-16 Culture and Meaning in Health Services Research is a practical guide to applying interpretive qualitative methods to pressing healthcare delivery problems A leading medical anthropologist who has spent many years working in applied healthcare settings Sobo combines sophisticated theoretical insights and methodological rigor with authentic real world examples and applications In addition to clearly explaining the nuanced practice of ethnography and guiding the reader through specific methods that can be used in focus groups or interviewing to yield useful findings Sobo considers the social relationships and power dynamics that influence field entry data ownership research deliverables and authorship decisions Crafted to communicate the importance of culture and

meaning across the many disciplines engaged in health services research this book is ideal for courses in such fields as public health and health administration nursing anthropology health psychology and sociology **Lard, Lice and Longevity** Ralf Futselaar,2008 Lard Lice and Longevity reconstructs economic policies implemented in Denmark and the Netherlands during the German occupation It clearly shows that the experiences of both these countries during World War I and during the 1930s equipped them to introduce extensive and intrusive economic controls to ward off a subsistence crisis In spite of the strong similarities between the two countries in terms of policies and economic order there remains a glaring difference between the two Throughout the occupation years the Netherlands suffered a markedly higher level of child mortality than before or after the war caused by an upsurge of infectious diseases Child health in Denmark on the other hand declined during the occupation years and infectious diseases rose only marginally there In spite of similar policies hence the outcome in terms of the biological standard of living was dissimilar By closely investigating the impact of various policies on everyday life and the amounts of goods available to different groups of consumers this study identifies the causes of this remarkable divergence Research Report London School of Hygiene and Tropical Medicine,1992 **The Citizens at Risk** Pedro Jacobi,Marianne Kjellen,Gordon McGranahan,Jacob Songsore,Charles Surjadi,2010-09-23 Local environments such as cities and neighbourhoods are becoming a focal point for those concerned with environmental justice and sustainability The Citizens at Risk takes up this emerging agenda and analyses the key issues in a refreshingly simple yet sophisticated style Taking a comparative look at cities in Africa Asia and Latin America the book examines the changing nature of urban environmental risks the rules governing the distribution of such risks and their differential impact how the risks arise and who is responsible The authors clearly describe the most pressing urban environmental challenges such as improving health conditions in deprived urban settlements ensuring sustainable urban development in a globalizing world and achieving environmental justice along with the greening of development They argue that current debates on sustainable development fail to come to terms with these challenges and call for a more politically and ethically explicit approach For policy makers students academics activists or concerned general readers this book applies a wealth of empirical analysis and theoretical insight to the interaction of citizens their cities and their environment **Kerala Sociologist** ,1995
