The Flying Classroom:

The Flying Classroom Erich Kästner, 2015-03-10 Martin's school is no ordinary school. There are snowball fights, kidnappings, cakes, a parachute jump, a mysterious man called No Smoking who lives in a railway carriage, and a play about a flying classroom. As the Christmas holidays draw near, Martin and his friends, nervous Uli, cynical Sebastian, Johnny who was rescued by a sea captain, and Matthias who is always hungry, particularly after a meal, are preparing for the end of term festivities. But there are surprises, sadness, and trouble on the way, and a secret that changes everything. The Flying Classroom is a magical, thrilling, and bittersweet story about friendship, fun, and being brave when you are at your most scared. It also features a calf called Eduard, but you will have to read it to find out why. [The Flying Classroom](#) Erich Kästner, 1959

At the same time, the use of Web-based learning environments highlights the audio-visual dimension of e-pedagogy, and the move towards practical, project-oriented curricula. Regardless of the educational field, pedagogical expertise thus requires more and more understanding and control of visual elements and their interpretations. There is a growing need for visually oriented pedagogical experts such as teachers, tutors, designers, and developers who are capable of community knowledge building and collaboration with other experts from different fields, from both private and public sectors. The book intends to illuminate scientific and programmatic excerpts from an international community of researchers, practitioners, teachers, and scholars working in interrelated fields such as Aesthetic Education, ePedagogy, Design, Visual Knowledge Building, Visual Education, Art.
