**Frame of the Universe** Durham Frank,1985      Evolution to the superhuman and prison-less community of the type 1 civilization. , According to the rate of development of our technology we are about to enter the next stage of cultural and social evolution Highly developed civilizations are classified into three types namely Type 1 Type 2 and Type 3 We are moving towards the type 1 civilization The greatest feature of Type 1 civilization is that we can meet all our energy needs with the help of solar energy If we can fully utilize solar energy we will have the energy we need for free This will greatly strengthen our economic structure Because of this the growth of our technology will get accelerated tenfold This is both a boon and a bane for us Technology will take us to greater heights At the same time these same technologies will cause our total destruction Therefore the whole world needs to become a like minded society So this book mainly discusses how we should change socially and culturally under the new circumstances We also discuss how to build a sustainable human society We are passing through a situation where hostilities between many countries can turn into war at any time At the same time separatists and extremists are on the rise within many countries In such a situation it is a great danger if we enter a Type 1 civilization Therefore this book is mainly about finding a way to solve all the problems that exist on Earth today Despite being rich in natural resources many countries are in the depths of poverty We can overcome this if we have a transparent society and governance system The first thing we need to do is to become a socially conscious people If every man becomes socially responsible the earth will be peaceful It is the responsibility of our rulers to mold such a society Therefore we are also discussing the need for a transparent governance system Terrorism has become so strong in the world because of the competition between two superpower countries You can also see in this book the need to avoid this competition All human beings have a duty to create a peaceful earth This book is my humble contribution to that end Hope you will find it useful too

**Rediscovering the Fifth dimension** Jan Edvin Andersen,2023-05-31 This brand new universal model and physics was first published in book form September 26th 2015 Remember the important date This book is a brand new textbook in a brand new basic 5 dimensional quantum physics and is written for future physicists and researchers This new model is a full visualization of all these extra undetectable quantum physical dimensions Rediscovering the fifth dimension is a brand new 5 dimensional quantum physics model that builds up the entire universe only on energetic oscillating fields and a very special universal substance This substance is actually the difference between whether something can be seen discovered detected or not This universal substance was fully proven by Carl David Anderson as early as the 1930s This semi physical substance is produced only by the Higgs field That is the only reason they were able to discover this Higgs field as the absolute only possible field they could detect in the particle accelerator They found absolutely no physical particles Remember this This is very important if you want to understand the universe as it really appears This new quantum physical hologram model's atoms are only these 4 dimensional oscillating energetic fields which are actually fully proven by the particle accelerator in 2016 As a result 99% of the universe actually consists of an undetectable quantum physics side and 1% is this strange substance This is where reality comes to the surface and becomes fully visible in the highly active 5 dimensional quantum physical universal engine room The fact that something is visible and detectable is only due to the substance This new model reveals Tesla technology and stealth technology and points out the very reason why the UFOs can disappear from today's high tech radars The reason why the UFO can disappear from radar is that there are no physical particles left in the UFO only the atom This substance can disappear again completely controlled also the stealth effect occurs in the UFO The particle accelerator's final and very clear evidence just says that there can be no physical particles and that it actually proves that there has never been a big bang Still today is this fake big bang universe only researched and taught Why Is it only because

scientists don't understand the right universe that the particle accelerator actually proved to them should be there The
