The Freedom Of French Classicism:

The Freedom of French Classicism Elbert Benton Op'tEynde Borgerhoff,1950 *The Freedom of French Classicism* Elbert Benton Op'tEynde Borgerhoff,1950 *Convention, 1500-1750* Lawrence Manley,1980 A major reinterpretation of the development of European literary theory this wide ranging study offers a new approach to ways of thinking about man s work in general This book is a history of the idea of convention the roles it played in the formative stages of English and Continental literary theory and in the development of modern thought **The Freedom of French Classicism, by E. B. O. Borgerhoff** E. B. O. Borgerhoff,1950 *Classicism* Dominique Secretan,2017-07-06 First published in 1972 this book provides an overview of Classicism in literature After an informative introduction to the term it explores some of the periods and places in which Classicism has been prominent the Italian Renaissance England before and during the Restoration Renaissance France and eighteenth century Germany In avoiding a rigid definition of Classicism this book demonstrates its multiplicity and changeability across time periods as well as its limits **French Classicism in the Seventeenth Century** Ruth Feinberg Markovitz,1960 **Introduction to French Classical Tragedy** C.J. Gossip,1981-06-18 **An Introduction to the French Classical Drama** Eleanor Frances Jourdain,1912 [The Oxford Handbook of the Baroque](#) John D. Lyons,2019-08-08 Few periods in history are so fundamentally contradictory as the Baroque the culture flourishing from the mid sixteenth to the mid eighteenth centuries in Europe When we hear the term Baroque the first images that come to mind are symmetrically designed gardens in French chateaux scenic fountains in Italian squares and the vibrant rhythms of a harpsichord Behind this commitment to rule harmony and rigid structure however the Baroque also embodies a deep fascination with wonder excess irrationality and rebellion against order The Oxford Handbook of the Baroque delves into this contradiction to provide a sweeping survey of the Baroque not only as a style but also as a historical cultural and intellectual concept With its thirty eight chapters edited by leading expert John D Lyons the Handbook explores different manifestations of Baroque culture from theatricality in architecture and urbanism to opera and dance from the role of water to innovations in fashion from mechanistic philosophy and literature to the tension between religion and science These discussions present the Baroque as a broad cultural phenomenon that arose in response to the enormous changes emerging from the sixteenth century the division between Catholics and Protestants the formation of nation states and the growth of absolutist monarchies the colonization of lands outside Europe and the mutual impact of European and non European cultures Technological developments such as the telescope and the microscope and even greater access to high quality mirrors altered mankind s view of the universe and of human identity itself By exploring the Baroque in relation to these larger social upheavals this Handbook reveals a fresh and surprisingly modern image of the Baroque as a powerful response to an epoch of crisis **The Classical Sublime** Nicholas Cronk,2003 Cronk presents a pioneering study of French neoclassical poetics and poetic theory with emphasis on Platonic influences *Boileau and the French Classical Critics in England* , [The](#)

Style of the State in French Theater, 1630–1660 Katherine Ibbett, 2016-12-05 Engaging with recent thinking about performance political theory and canon formation this study addresses the significance of the formal changes in seventeenth century French theater Each chapter takes up a particularity of seventeenth century theatrical style and staging for example the clearing of violence from the stage and shows how the conceptualization of these French stylistic shifts appropriates a rich body of Italian political writing on questions of action temporality and law The theater's appropriation of political concerns and vocabularies the author argues proffers an astute reflection on the practices of government that draws attention to questions obscured in reason of state such as the instrumentalization of women's bodies In a new reading of tragedies about government the author shows how the canonical figure of Pierre Corneille is formally engaged with the political strategizing he often appears to repudiate and in so doing challenges a literary history that has read neoclassicism largely as a display of pure French style

The Freedom of French Classicism, By E.B.O. Borgerhoff Elbert Benton Op'T Eynde Borgerhoff, 1968

French Humanist Tragedy Donald Stone, 1974 In this the first study of its kind to appear in English the author a professor of Romance Languages at Harvard University discusses the concepts which determined the nature and function of French humanist tragedy and the importance of those concepts with regard to the genre's relationship to medieval ancient and French classical drama The emphasis on conceptual rather than formal considerations reveals strong ties between tragedy and other sixteenth century genres now largely neglected The book also shows that the formal changes in tragedy introduced by the humanists are less consequential than once thought and in his last chapter suggests that a deeper appreciation of the character of French humanist tragedy can shed new light on the coming of classicism

Dryden's Classical Theory of Literature Edward Pechter, 1975-03-20 Professor Pechter's book attempts to describe the consistent structure of both style and method within which Dryden examines orders and evaluates literary experience This mode permits Dryden to recognise the real differences between French and English drama Virgilian and Ovidian style judgement and fancy to take some of the more familiar from among Dryden's typical conjunctive pairs without either merging their differences into some grand synthesis or transforming them into mutually exclusive antitheses Dryden's is above all a comprehensive theory of literature which aims at responding to a broad range of various literary styles genres faculties and effects Dryden's balance is classical the poise of the golden mean and Professor Pechter endeavours to give fresh life to classical as an epithet often previously applied to Dryden Ranging among writers in ancient Greece and Rome and among Dryden's contemporaries in England and France the author outlines a rich literary tradition within which Dryden's criticism is more easily appreciated and better understood

Orientalism in French Classical Drama Michèle Longino, 2006-03-16 Michèle Longino examines the ways in which Mediterranean exoticism inflects the themes represented in French classical drama Longino explores plays by Corneille Molière and Racine *Le Cid* *Médée* and *Le bourgeois gentilhomme* among others She offers a consideration of the role the staging of the near Orient played in shaping a sense of French colonial identity Drawing

on histories travel journals memoirs and correspondence and bringing together literary and historical concerns Longino considers these dramatisations in the context of French Ottoman relations at the time of their production

The Feminist Encyclopedia of French Literature Eva M. Sartori, 1999-07-30 The earliest known literary productions by women living in Europe were probably written by French writers As early as the 12th century women troubadours in the south of France were writing poems French women continued writing through the ages their number increasing as education became more available to women of all classes And yet of the great number of works by women writers who preceded the current feminist movement very few have survived A few writers such as Marie de France George Sand and Simone de Beauvoir became part of the canon But critics mostly male had judged the works of only a few women writers worthy of recognition As part of the feminist move to reclaim women writers and to rethink literary history scholars in French literature began to take a new look at women writers who had been popular during their lifetimes but who had not been admitted into the canon This reference book provides extensive information about French women writers and the world in which they lived Included are several hundred alphabetically arranged entries for authors literary genres such as the novel poetry and the short story literary movements such as classicism realism and surrealism life cycle events particular to women such as menstruation and menopause events and institutions which affected women differently than men such as revolutions wars and laws on marriage divorce and education The volume spans French literature from the Middle Ages to the present and covers those writers who lived and worked mainly in France The entries are written by expert contributors and each includes bibliographical information The entries focus on each writer's awareness of how her gender shaped her outlook and opportunities on how categorizations structures and terms used to describe literary works have been defined for women and the ways in which women writers have responded to these definitions The volume begins with a feminist history of French literature and concludes with a selected general bibliography and a chronology of women writers
