The Frozen Revolution:

The Frozen Revolution Gibney,2004 **The Frozen Revolution** Ferenc Fehér,1987 *The Frozen Revolution* Ferenc Fehér,1987-01-01 [The Price of Freedom](#) Piotr S. Wandycz,2017-07-05 The Price of Freedom surveys and explains the fascinating and intricate history of East Central Europe the present day countries of the Czech Republic Hungary Poland and Slovakia Taking a thematic approach the author explores such issues and controversies as the tension between the industrial developed West and the agrarian East Central Europe the rise of modern nationalism democracy and authoritarianism and Communism While the countries of East Central Europe have differed dramatically from one another the author asserts that they have been bound by a certain community of fate These comparisons are traced through the Middle Ages and the Early Modern era to the nineteenth and twentieth centuries This exploration reveals that it is no accident that the Czech Republic Hungary and Poland were the first among the former Soviet bloc nations to be admitted to NATO and are likely to become the first members of the expanded European Union Thus an understanding of their experiences contributions and their place within the European community of nations vastly enriches our knowledge of Europe s past and present The second edition of this distinguished book brings the history of the region up to date It discusses the events of the post communist decade of the 1990s and the problems resulting from the transition to democracy and market economy **The Virtues of Violence** Kevin Duong,2020 The Virtues of Violence studies a pervasive but misunderstood image of violence in modern French thought popular violence as social regeneration It argues that this vision of violence was not a niche phenomenon but central to the momentous developments of modern French politics It appealed to thinkers across the spectrum because it answered fundamental dilemmas at the heart of democratization Understanding its pervasive appeal Duong argues reveals how democracy was never simply a struggle for justice or a new legal regime but also liberating visions of the social bond **Handbook of Social Theory** George Ritzer,Barry Smart,2003-07-26 The Handbook of Social Theory presents an authoritative and panoramic critical survey of the development achievement and prospects of social theory *The Process of Democratization* György Lukács,1991-01-01 Georg Lukacs s The Process of Democratization provides indispensable reading for an understanding of the revolution that swept Russia and Eastern Europe during 1989 1990 Lukacs a spokesman for anti Bolshevik communism was the advance guard of anti Stalinist reform Written in the aftermath of the Prague Spring his book was a precursor to many of the Gorbachev reforms Lukacs was the leading communist intellectual in the world until his death During his last 15 years he embarked upon a massive effort to revive Marxism as philosophy as aesthetics and as politics The Process of Democratization was part of this attempt at a Marxist renaissance He would probably be surprised to find that the Second Russian Revolution of 1989 1990 moved far beyond his reformism overthrowing even the anti Stalinist communism that he fought to retain **Themes in Modern European History since 1945** Rosemary Wakeman,2003-06-26 Broad in geographical scope this collection explores the

most important transformations and upheavals of post 1945 Europe in the light of recent scholarship A wide array of authors from the UK the USA and across Europe contribute twelve chapters consider key political cultural and economic changes of an era that needs reevaluation and reconsideration from a historical perspective Cross disciplinary covering a wide range of issues politics economics social and cultural aspects Themes in Modern European History since 1945 is structured around recent theoretical debates on the postwar and will find a firm standing on the bookshelves of European history students

The Intellectual and His People Jacques Ranciere, 2021-03-16 Following the previous volume of essays by Jacques Ranciere from the 1970s *Staging the People* *The Proletarian and His Double* this second collection focuses on the ways in which radical philosophers understand the people they profess to speak for *The Intellectual and His People* engages in an incisive and original way with current political and cultural issues including the discovery of totalitarianism by the new philosophers the relationship of Sartre and Foucault to popular struggles nostalgia for the ebbing world of the factory the slippage of the artistic avant garde into defending corporate privilege and the ambiguous sociological critique of Pierre Bourdieu As ever Ranciere challenges all patterns of thought in which one time radicalism has become empty convention

The Frankfurt School Revisited Richard Wolin, 2013-05-13 This volume is a collection of essays by Richard Wolin a leading political theorist and intellectual historian It is the follow up to Wolin's two recent widely acclaimed books *Heidegger's Children* and *The Seduction of Unreason* In those books he explored the legacy of Martin Heidegger and his impact on some of his most influential and notable students He dealt particularly with the effect that Heidegger's subsequent embrace of fascism and National Socialism had on these students Delving further in his next book Wolin explored the question of why philosophers and intellectuals have been drawn to antiliberal antidemocratic fascism The essays in this book are focused on European Political Thought particularly with figures associated with the Frankfurt School The collection represents a virtual who's who of European political thinkers with essays on Walter Benjamin Adorno Marcuse Arendt Heidegger Weber Jaspers and Carl Schmitt Moving beyond these thinkers and those books this collection will also include essays on contemporary political issues such as post communist revolutions human rights global democracy the revival of republicanism and religion and public life

The Shaping of Liberal Politics in Revolutionary France Anne Sa'adah, 2014-07-14 Marshalling historical materials to make a descriptive argument in social theory this wide ranging book compares the liberal revolution in France to the liberal revolutions in England and America and argues that the causes and outcomes of these upheavals were decisive in shaping later patterns of politics Conflict is the stuff of politics writes Anne Sa'adah and liberal politics because of its emphasis on the individual and its legitimation of self interest complicates the task of creating political community in a particularly interesting way In England and America the tension between conflict and community was resolved in a manner consistent with political stability In France the tension produced an instability that has surfaced periodically throughout subsequent French history Why this is so is the subject of a work that treats the making of the modern political world in an

unusually systematic way In France England and America the relationship of the state to society under the prerevolutionary regime limited revolutionary options Sa adah focuses on how this relationship created a politics of exclusion in France while allowing a politics of transaction in England and America Originally published in 1990 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905
