*In the Footsteps of Zarafa, First Giraffe in France* Olivier Lebleu, 2020-08-21 This engaging account traces the remarkable history of France's first giraffe a diplomatic gift from Egyptian Pasha Muhammed Ali to King Charles X in 1826 Zarafa taken by boat from Egypt to Marseilles and walked all the way to Paris was accompanied by her Arab handlers and a famous French naturalist She drew vast crowds along her route sparking a giraffomania that was widely documented in art and literature Her initial journey and then long and celebrated residence in Paris encapsulates nineteenth century French socio political history and highlights the emerging evolutionary theories of the time Over fifty illustrations from the period illuminate this rare encounter with a unique animal that is now endangered and deserving of our greater attention and understanding

*Reflective Practice in Child and Adolescent Psychotherapy* Jeanine Connor, 2020-04-08 Therapy referrals for a child or young person can be motivated for a number of reasons The parents carers or professionals responsible for their wellbeing might describe a sudden change in presentation risk taking behaviour such as self harm or experimentation with drugs alcohol or sex or they might label the young person as over reacting under reacting or attention seeking Such behaviour prompts concern for their safety and confusion about why the child or young person is presenting the way they are This book offers a thoughtful approach to making sense of such behaviour and encourages adults to reflect on rather than react to young people's outward presentations Based on the author's work with children young people and families over two decades this book shares reflections from the therapy room and illustrates how the therapist can try to make sense of mood behaviour and presentations that previously made no sense The content relies heavily on clinical experience as well as drawing on classical and contemporary psychotherapeutic literature So often adults find themselves reacting to observable behaviour in a judgmental or punitive way rather than pausing to consider what the behaviour might be communicating The author aims to model a thoughtful reflective approach to making sense of what might be going on for children and young people and this book will be of great interest to child and adolescent psychotherapists related professionals and those with an interest in young people's mental health
