Visions of the Future Matthew Rampley,2025-06-10 Some of the most striking examples of modernist architecture are churches yet they have seldom been subject to extended critical analysis In this book Matthew Rampley provides just such an analysis focusing on the Catholic Church in interwar Austria Czechoslovakia and Hungary A powerful institution in the

Habsburg Empire the Catholic Church continued to be a central social political and cultural agent after 1918 working in alliance with political parties and national governments to promote visions of a new national culture As a result church building took on an important ideological and political function Rampley s study is set against the backdrop of two interrelated issues the role of architecture in the Catholic Church s response to an increasingly secular modernity and church architecture as part of the Church s attempts to shape social and political life in the states that emerged after the collapse of Austria Hungary Rampley also examines the aesthetic cultural and political contexts that informed architectural projects including the conflict between Catholicism and social democracy the embrace of fascism Catholic theories of technology and discourses of regionalism and ruralism In bringing to light an untold chapter in the history of modern architecture this book also engages in methodological reflection on the implications of the study of modern church architecture for the historiography of modernism This book will appeal to students and scholars of architectural history religious and political history and interwar Central European history European Solidarity in Action and the Future of Europe Michael Kaeding,Johannes Pollak,Paul Schmidt,2022-02-18 This book sheds light on how member states and EU neighbours reacted to the COVID 19 pandemic through the lens of European solidarity what they expect from the EU and other member states and how they are ready to contribute to common action The volume reveals how European countries experience and perceive solidarity from the EU and towards the EU in different policy dimensions such as intra EU mobility healthcare and financial and economic aspects of Europe s recovery The book offers national perspectives and perceptions of solidarity and concrete aspects in different policy areas It includes a Foreword by the Vice presidents of the European Parliament Katarina Barley and Othmar Karas Job Creation and Local Economic Development 2018 Preparing for the Future of Work OECD,2018-09-18 This third edition of Job Creation and Local Economic Development examines the impact of technological progress on regional and local labour markets It sheds light on widening regional gaps on job creation workers education and skills as well as inclusion in local economies The Future of Europe United States. Globalization and the Future of the Welfare State Miguel Glatzer,Dietrich Rueschemeyer,2010-11-23 In the last quarter of the twentieth century the global political economy has undergone a profound transformation Democracy has swept the

globe and both rich and developing nations must compete in an increasingly integrated world economy. How are social welfare policies being affected by this wave of economic globalization? Leading researchers explore the complex question in this new comparative study. Shifting their focus from the more commonly studied established welfare states of northwestern Europe, the authors of *Globalization and the Future of the Welfare State* examine policy development in the middle income countries of southern and eastern Europe, Latin America, Russia, and East Asia. Previous investigations into the effects of globalization on welfare states have generally come to one of two conclusions. The first is that a global economy undermines existing welfare states and obstructs new developments in social policy as generous provisions place a burden on a nation's resources and its ability to compete in the international marketplace. In contrast, the second builds on the finding that economic openness is positively correlated with greater social spending, which suggests that globalization and welfare states can be mutually reinforcing. Here, the authors find that globalization and the success of the welfare state are by no means as incompatible as the first view implies. The developing countries analyzed in *Globalization and the Future of the Welfare State* demonstrate that although there is great variability across countries and regions, domestic political processes and institutions play key roles in managing the disruptions wrought by globalization.

Language Policy and the Future of Europe

Alice Leal, Seán Ó Riain, 2023-06-21. This volume offers an insider perspective on language policy in the EU, bringing together two key figures well acquainted with its development to reflect critically on the future of language policy and practices in post-Brexit Europe. Born out of Alice Leal's *English and Translation in the European Union*, this volume features annotated interviews with Seán Ó Riain, newly appointed Multilingualism Officer by the Irish diplomatic service, whose decades of experience in key milestones in EU language policy offer a unique perspective on its development. Each chapter, bookended by a contextual introduction and a closing commentary by Leal, addresses such key questions as: How long can the EU keep linguistic and cultural spheres off the policy-making agenda? How has the ECRML impacted linguistic diversity in the region? How widespread is the dominance of English in EU institutions today, and what impact does it have on EU multilingualism? Why is EU language policy not given the attention it warrants? What does the future of language policy hold in this post-Brexit era? Providing exclusive insights into EU language policy, this book will appeal to scholars in applied linguistics, translation studies, sociolinguistics, and political science, as well as stakeholders in language policy and planning.

Enlargement and the Future of Europe

Michael Kaeding, Johannes Pollak, Paul Schmidt, 2024-01-04. This book analyses Member States and EU neighbours' national visions for the enlargement of the European Union, highlighting 41 national histories, policies, and corresponding public perceptions of European integration. In a geopolitical context in which Russia's war of aggression in Ukraine has renewed the impetus for EU enlargement, national views vary considerably on the timing, conditions, and reforms necessary to welcome Eastern neighbours and the Western Balkans countries into the European family. Moreover, EU enlargement policy is not only an investment in peace and stability; it has also become a political tool in response to the

exploitation of interdependencies and illiberal pressures This book presents concrete policy recommendations to national governments and the EU on how to move forward productively

Russia and the Future of Europe Michael Kaeding,Johannes Pollak,Paul Schmidt,2022-07-06 This book sheds light on how Member States and EU neighbours relate to Russia It includes their historical financial and political ties as well as the public perception of the national population vis vis Russia Each chapter builds on these factors to elucidate the country s position towards Russia and provides a prediction on the future of these relations This volume shows the diverse relations that the EU member states and neighbours have with Russia spanning from tense and confrontational to more eased and friendly highlighting the contrasts between the national state and the EU as a whole The book also presents the reader with concrete aspects in different policy areas via recommendations on how single countries and the EU should deal with Russia Russia s invasion of Ukraine on 24th February 2022 will change the relationship between the West and Putin s Russia for decades to come No doubt that this blatant violation of International Law and the incomprehensible human suffering of Ukrainian citizens will massively change the attitude of the countries analysed in this book
