understanding of what learning really means and what education can contribute to the struggles of working class women intent on changing the circumstances of their lives Organized into three parts in the first section Thompson draws on autobiographical experience to root theoretical understanding in the authority of personal knowledge In part two she illustrates how theoretical analysis can inform arguments about women s changing relationships to class community consciousness and education In the final part she provides detailed examples of educational work she has been involved in with working class women Containing vivid autobiographical narratives from women in England and Northern Ireland **Women Class and Education** explores compelling personal narratives that underline the importance of feminism as a source of political inspiration social analysis and change **Spinning Fantasies** Miriam Peskowitz,1997-11-26 It is through this study of the imagery and remains of spinning that Peskowitz shows how gender and rabbinic Judaism were indeed inextricable **Give Us Bread but Give Us Roses** Sarah Eisenstein,2013-07-18 Rooted in the printed sources of the period this book reconstructs the attitudes of a pioneer generation of young women to the conflicts brought about by their new experience of employment outside their homes and to changes in work and family relationships In the 1890s and after the still prevalent Victorian conception of respectable womanhood excluded wage earning women Yet working class women themselves did not acquiesce in this judgement and Eisenstein s exploration of Victorian ideas about women and work using the contemporary middle class literature of advice and prescription to this new workforce makes a historical study which is a classic of its kind The book was originally published in 1983 **Bulletin of the United States Bureau of Labor Statistics** ,1961 **Hearings** United States. Congress. House.
