The Forces Of Liberty:

The Liberal Script at the Beginning of the 21st Century Tanja A. Börzel, Johannes Gerschewski, Michael Zürn, 2024-10-10
This is an open access title available under the terms of a CC BY NC ND 4.0 International licence. It is free to read at Oxford Academic and offered as a free PDF download from OUP and selected open access locations. 21st century liberalism is being contested on multiple fronts and by a wide range of actors. To understand these challengers it is important to have a better grasp of their common target. This book introduces the liberal script as an analytical concept that allows us to analyze and problematize liberal thinking as well as its different components and linkages and the tensions that they produce. What happens when the pursuit of market efficiency is incompatible with social justice? It is these tensions between the different components of the liberal script that are at the heart of the challenges against it. Different societies have resolved these tensions in different ways leading to a variety of liberal subscripts and their contestations. The volume integrates theoretical and methodological perspectives from different disciplines including political science, sociology, law, history, philosophy, post colonial studies and educational science. In demonstrating the theoretical and empirical added value of using the concept of liberal script, the volume presents a multifaceted and nuanced picture of what is at stake in the challenges to liberalism in the early 21st century. This volume has emerged from research carried out as part of the Cluster of Excellence Contestations of the Liberal Script SCRIPTS which analyzes the contemporary controversies about liberal ideas, institutions and practices on the national and international level from a historical, global and comparative perspective. It connects academic expertise in the social sciences and area studies and collaborates with research institutions in all world regions. Operating since 2019 and funded by the German Research Foundation DFG, SCRIPTS unites eight major Berlin-based research institutions: Freie Universität Berlin, the Humboldt Universität zu Berlin, the Berlin Social Science Center WZB, the Hertie School, the German Institute for Economic Research DIW, the Berlin branch of the German Institute of Global and Area Studies GIGA, the Centre for East European and International Studies ZOiS and the Leibniz Zentrum Moderner Orient ZMO.

The Knights Templar Rudolf Steiner, 2013-05-16
Founded in the early twelfth century allegedly to protect pilgrims to the Holy Land, the Knights Templar became famous for their pioneer banking system, crusading zeal and strict vows of obedience, chastity and poverty. Having grown to some 15,000 men, they came to be perceived as a threat by Philip the Fair who in 1307 disbanded the group and tortured their leaders for confessions. The French king accused the order of heresy, sodomy and blasphemy. Recent works of fiction and popular histories have created a resurgence of interest in the mysterious Knights Templar. Numerous contradictory and fantastic claims are made about them, adding to the enigma that already surrounds the warrior monks of France. In this unique collection of lecture material and writings from Rudolf Steiner, a new perspective emerges. Based on his spiritual perceptions, Steiner speaks of the Templars' connection to the esoteric tradition of St John, their relationship with the Holy Grail and their spiritual dedication to Christ. He describes the secret order that existed within the Templars and the

strange rituals they performed He also throws light on the Templars attitude to the Roman Church and the spiritual forces that inspired their torture and confessions Liberty's Triumph Robert Wharton Landis,1849 **The Parliamentary Debates** Great Britain.
