The Foreign Policies of Arab States Bahgat Korany, Ali E. Hillal Dessouki, 'Alī al-Dīn Hilāl, Aḥmad Yūsuf Aḥmad, 1991. Middle East politics have been proverbial for their changeability. The 1970s ushered in petro politics for instance, but OPEC's international status declined markedly in the following decade. Similarly, the Arab world's ostracism of Egypt in the 1970s following its separate peace with Israel was turned around in the 1980s; the late 1980s also brought PLO acceptance of the State of Israel. Interstate relations were not the only arena to experience significant alterations; state-society relations also underwent dramatic changes, such as the acceleration of privatization in erstwhile socialist regimes. Since the book was originally published in 1984, in addition, the authors have included two new chapters on Jordan at the heart of the Arab world and on the Sudan, the region's link to sub-Saharan Africa. Their inclusion allows a fuller understanding of the foreign policies of states that occupy crucial geopolitical positions but wield little tangible power.

The Foreign Policies of Arab States Bahgat Korany, Ali El-din Hillal Dessouki, 2019-10-02. Middle East politics have been proverbial for their changeability. The 1970s ushered in petro politics for instance, but OPEC's international status declined markedly in the following decade. Similarly, the Arab world's ostracism of Egypt in the 1970s following its separate peace with Israel was turned around in the 1980s; the late 1980s also brought PLO acceptance of the State of Israel. Interstate relations were not the only arena to experience significant alterations; state-society relations also underwent dramatic changes, such as the acceleration of privatization in erstwhile socialist regimes. Then the 1990s opened with a political earthquake: the Gulf Crisis. The second edition of this highly acclaimed text offers a penetrating analysis of trends in Arab foreign policies since the book was originally published in 1984, including an early analysis of the effects of Iraq's invasion of Kuwait and the subsequent coalition victory over Iraq. In addition, the authors have included new chapters on Jordan at the heart of the Arab world and on the Sudan, the region's link to sub-Saharan Africa. Their inclusion allows a fuller understanding of the foreign policies of states that occupy crucial geopolitical positions but wield little tangible power. Moreover, in many of its chapters, the book raises the crucial question of how the foreign policies of these countries can cope with the prevalence of political change.

The Foreign Policies of the Global South Jacqueline Anne Braveboy-Wagner, 2003. Seeking to refocus thinking about the behavior of the global south/third world states in international affairs, this book explores contending explanations of global south foreign policy and strategy. The authors draw on both traditional approaches and newer conceptualizations in foreign policy analysis, contributing to the development of an integrated theoretical framework. Examples from Africa, Asia, Latin America, and the Arab world enrich the analysis.

Foreign Policy in North Africa Irene Fernandez Molina, Miguel Hernando de Larramendi, 2020-12-17. Foreign Policy in North Africa explores how the foreign policies of North African states

which occupy a peripheral and subaltern position within the global system have actively responded to the constraints and opportunities stemming from multi level transformations in the 2010s What has been the extent of continuity and change in each country s foreign policy making and behaviour under such conditions Which structural and agential factors explain the variations observed or the lack thereof Building on scholarship on foreign policy in the Global South and the Middle East and North Africa MENA as well as the international impact of the 2011 Arab uprisings case studies on six different countries focus on a specific level of analysis for each These range from the global Tunisia s financial predicaments and foreign debt negotiations through the sub regional Egypt s relationship of necessity with Saudi Arabia Algeria s half hearted policies towards the conflicts in Libya and Mali to the domestic sphere Morocco s power balance between the monarchy and the Islamist led government Libya s extreme state weakness and internal competition among proliferating actors reaching also the deeper non state societal level in the case of Mauritania The volume concludes by examining post 2011 developments in the longstanding Algerian Moroccan rivalry which hinders regional integration in the Maghreb Foreign Policy in North Africa will be of great interest to scholars of North African politics and international relations Middle Eastern and North African studies foreign policy and global international relations The chapters were originally published as a special issue of The Journal of North African Studies

The Development of Saudi-Iranian Relations since the 1990s Fahad M. Alsultan, Pedram Saeid, 2016-08-25

Saudi Arabia and Iran have established themselves as the two regional heavyweights in one of the world s most tumultuous but critically significant regions The two countries compete on many fronts including regional politics oil prices and for leadership of the Islamic world a competition with undeniable repercussions for the Greater Middle East and for the world Some observers have gone so far as to claim that virtually everything that happens in this area of the world can be viewed as part of the Saudi Iranian power struggle With increasing importance of the region as the dominant supplier of world energy and the birthplace of Islamic militant groups the consequences of not understanding Saudi Iranian rivalry in the region have never been more serious A range of internal and external explanatory factors explains the ups and downs of Saudi Iranian relations since the 1990s This book captures this complexity by drawing on multicausal explanations through multiple levels of interdisciplinary analysis This is the first book on the subject that is co authored by one author from Saudi Arabia and one from Iran This collaboration allowed the authors to make the best use of Persian and Arabic sources generating a locally meaningful account of the two countries relationship As Iranian and Saudi nationals they encountered less difficulty in gaining access to research participants building rapport and conducting interviews with Iranian and Saudi scholars and informants

The Foreign Policies of the EU's Mediterranean States and Applicant Countries in the 1990's Theodore Couloumbis, Stelios Stavridis, Thanos Veremis, Neville Waites, 2016-07-27 The book analyses the foreign policies of EU Mediterranean states and applicants in the context of wider EU Mediterranean relations It provides a unique comparative

analysis of current members and applicant Mediterranean states in the 1990s at a time when EU processes of enlargement and integration raise fundamental needs to define interests of the EU in its Southern and Eastern relationships Foreign Policy in Iran and Saudi Arabia Robert Mason, 2014-12-22 Saudi Arabia with its US alliance and abundance of oil dollars has a very different economic story to that of Iran which despite enormous natural gas reserves has been hit hard by economic trade scientific and military sanctions since its 1979 revolution Robert Mason looks at the effect that economic considerations such as oil gas sanctions trade and investment have on foreign policy decision making processes and diplomatic activities By examining the foreign policies of Saudi Arabia and Iran towards each other and towards the wider Middle East and beyond Mason seeks to highlight how oil policy including oil production pricing and security of supply and demand is the paramount economic factor which drives the diplomacy and rivalry of these two pivotal regional powers By comparing the foreign policy of Saudi Arabia and Iran towards the international community and the US in particular Mason presents the very different economic and political trajectories of these two countries In the case of Saudi Arabia it has long been oil which has given the country importance both within the region and on an international scale This has made it a vital ally for the West which culminated in the stationing of US troops on Saudi soil in the run up to the Gulf War of 1991 In contrast Iran's resistance strategy has rather than concentrating on relationships with the West instead looked to a number of other players such as those in Central Asia and Latin America Mason uses the Saudi and Iranian cases to illustrate the combination of ideological geo strategy and economic resources that have insulated these two regimes against internal and external pressures and resulted in their dominance in the regional system By concentrating on the economic factors in alliance building and alliance deconstruction Mason offers vital analysis for researchers of international relations in the Middle East and the processes involved in the formation of foreign policy International Relations Scholarship Around the World Arlene B. Tickner, Ole Wæver, 2009-06-24 This book provides the most comprehensive global analysis of international relations ever published assessing the state of the discipline in different corners of the world through insights derived from sociology of science and postcolonial theory Foreign Relations of the United States, 1951: The Near East and Africa, 1977

The Responsibility to Protect Jared Genser, Irwin Cotler, 2012 The Responsibility to Protect provides a comprehensive view on how this contemporary principle has developed and analyzes how to best apply it to current humanitarian crises

The Making of Lebanese Foreign Policy Henrietta Wilkins, 2013-05-29 Seeking to explain Lebanon's behavior in the international arena during the 2006 war between Hezbollah and Israel this book offers a critique of both systemic and sub state factors in determining foreign policy decisions The Making of Lebanese Foreign Policy illustrates how systemic theories are limited in terms of explaining foreign policy decisions because they largely ignore the role of internal or sub state factors Within Lebanon foreign policy is split between the interests of different internal Lebanese groups working in alliance with external actors The competing interests of these internal groups compromise the cohesion of the Lebanese state and its

capacity to promote its own interests above those of the different internal groups The example of Lebanon during the 2006 war thus demonstrates the importance of these sub state factors in influencing state behaviour on an international level Arguing that a more pluralistic approach is necessary in order to understand the conditions that affect the foreign policy making of the Lebanese state this book fills an important gap in the literature on the topic and will be of interest to students of International Relations Middle East Studies and Islamic Studies amongst others African Foreign Policies Stephen Wright, 2018-02-22 This volume of thirteen original essays provides a timely analysis of African foreign policies in a post Cold War environment where African marginalization from the global economy appears to be increasing Three thematic essays give an overview of critical changes occurring in African foreign policies and ten country by country case studies provide specific analyses of decisionmaking intraregional relations and the struggles over policy with external agencies including the World Bank and the International Monetary Fund African Foreign Policies offers explanations for how African states are adapting to the international challenges of the late twentieth century
