

## The Role of Foreign Powers in the History of Latin America

✓ Exclusively available on IvyPanda

The history of Latin America is full of contradictory events related to the interference of foreign powers in its affairs. The United States had the most significant impact on Latin American history. The majority of historians have an opinion that both the impact of the United States and the impact of the other foreign powers have played a negative role in the history of Latin America, and Latin Americans have failed to understand how significant that role has appeared to be. The following paper aims to evaluate this position. Overall, the facts prove that Latin Americans did suffer a lot from foreign powers including the United States, and Latin Americans truly failed to understand and contain the abuses by people from the other countries.

Beginning from the foreign intervention to Latin America, the native people started suffering from the abuse of the newcomers. There are many examples of this bad tendency including the European Conquest, the age of piracy, the U.S. intervention during the period of Roosevelt's presidency, the period of the spread of communism in the world, and the modern-day foreign intervention. Below, particular facts of the abuse and bad influence by foreign powers will be addressed in more detail.

During the European Conquest of Latin America, which took place in the 16th century, native people had to suffer from endless and bloody wars taking away the lives of millions of people, destroying countries, and wiping out entire nations and cultures (Kirkpatrick 21). Spain and Portugal managed to provide themselves with the gold from the New World for a few centuries ahead, but that was done by the price of Native Americans' lives. Local people were cruelly deceived by the treacherous conquistadors who wanted their land, their riches, and their dissipation (Kirkpatrick 22). This period in the history of Latin America is by far the most eloquent with regards to the question of whether foreign powers had a bad impact on its development. Reflecting on the facts of the European Conquest, there are no doubts left that foreigners brought grief to Latin Americans, and robbed them of their riches and even their lives. The age of piracy also left its bad trace in the history of Latin America. Foreign pirates from England, France, and Denmark wanted a piece from a nice Latin American pie as well. They hoped to take away the gold that was left after the Spanish and Portuguese conquistadors.
