The Spanish Element in Our Nationality M. Elizabeth Boone, 2019-12-09 *The Spanish Element in Our Nationality* delves beneath the traditional English only narrative of U S history using Spain's participation in a series of international exhibitions to illuminate more fully the close and contested relationship between these two countries Written histories invariably record the Spanish financing of Columbus's historic voyage of 1492 but few consider Spain's continuing influence on the development of U S national identity In this book M Elizabeth Boone investigates the reasons for this problematic memory gap by chronicling a series of Spanish displays at international fairs Studying the exhibition of paintings the construction of ephemeral architectural space and other manifestations of visual culture Boone examines how Spain sought to position itself as a contributor to U S national identity and how the United States in comparison to other nations in North and South America subverted and ignored Spain's messages making it possible to marginalize and ultimately obscure Spain's relevance to the history of the United States Bringing attention to the rich and understudied history of Spanish artistic production in the United States *The Spanish Element in Our Nationality* recovers the Spanishness of U S national identity and explores the means by which Americans from Santiago to San Diego used exhibitions of Spanish art and history to mold their own modern self image

The Four Lost Men Thomas Wolfe, 2008 This is the never before published extended version of Wolfe's short story in memory of his father The Four Lost Men is the first publication of the long version of Wolfe's story of familial and national reflection set during World War I Wolfe supplies a moving portrait of his dying father as well as a rich mediation on American history and ambitions on the verge of America's entry into a broadening global conflict Discussion of the title characters Presidents Garfield Arthur Harrison and Hayes provides opportunity for assessment of the mood and promise of the nation as well as reflection on the obstacles that had obscured paths toward untapped American potential Garfield Arthur Harrison and Hayes the four Republican presidents who followed Grant during the Reconstruction and post Reconstruction eras were all Civil War generals and self made men though none experienced a particularly distinguished term in office These presidents are iconic figures in the stories and political musings of the narrator's dying father In his efforts to understand their importance to his father the teenaged narrator comes to appreciate the act of storytelling that redefines these men in his father's memory and in turn redefines his father in the his own memory Originally published as a short story of 7 000 words in Scribner's Magazine in 1934 and later abridged by 1 000 words for reissue in the 1935 anthology From Death to Morning Wolfe's expanded tale is published here for the first time in its intended form and full length of some 21 000 words Editors Arlyn and Matthew J Brucoli have employed the same methods to reestablish this text as they used to wide acclaim in their centennial edition of O Lost The Story of a Buried Life the unabridged version of Wolfe's Look Homeward Angel The reestablishment of the long version of Four Lost Men opens an undeveloped area of scholarship into Wolfe's short fiction and serves as a model for restoring other such works
