**The Formal Strain** Howard D. Weinbrot, Richard B. Bunt, John M. DeDourek, 1986      **Johnson, Rasselas, and the Choice of Criticism** Edward Tomarken, 2021-10-21 Although Rasselas has received more critical commentary than almost any other work by Samuel Johnson Edward Tomarken's book is the first full length study to focus on his tale of the Prince of Abyssinia This anomaly arises as Tomarken shows because Rasselas has remained resistant to the customary critical approaches of the eighteenth nineteenth and twentieth centuries consistently eliciting new kinds of insights and raising new sorts of problems Tomarken's contribution is a new methodology to explain this phenomenon He sees Johnson's early writings London and Irene as instances of the writer trying with only partial success to achieve what he first realized in The Vanity of Human Wishes a means of permitting literary form to refer to conduct Later works such as The Journey to the Western Islands of Scotland are viewed as further developments of this method which achieved its fullest expression in Rasselas and the Life of Pope Such a reading of Johnson develops an aesthetic that operates on the margins between the literary and the extra literary Although Johnson's own critical view was unable to accommodate such a position Tomarken shows that in practice he moved toward it by a process of trial and error manifest in his poetry and narratives When raised to the level of critical method this approach goes beyond the assumptions not only of Johnson's day but also of our own Tomarken's theoretical coda demonstrates how the choices of current critical theory like those in the marriage debate in Rasselas can be understood to interact with one another Specifically he proposes a dialectical relationship for two approaches hermeneutics and structuralism usually seen as opposed to one another This innovative study will interest not only Johnson scholars but all those concerned with critical theory      **Alexander Pope and the Traditions of Formal Verse Satire** Howard D. Weinbrot, 2014-07-14 Ranging over the tradition of verse satire from the Roman poets to their seventeenth and eighteenth century imitators in England and France Howard D Weinbrot challenges the common view of Alexander Pope as a Horatian satirist in a Horatian age Originally published in 1982 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905      **The Plagiarism Allegation in English Literature from Butler to Sterne** R. Terry, 2010-09-22 Contributing to the growth in plagiarism studies this timely new book highlights the impact of the allegation of plagiarism on the working lives of some of the major writers of the period and considers plagiarism in relation to the emergence of literary copyright and the aesthetic of originality      *The Just and the Lively* Michael Werth Gelber, 2002 Recognition is often considered a means to de-escalate conflicts and promote peaceful social interactions This volume explores the forms that social recognition and its withholding

may take in asymmetric armed conflicts examining the risks and opportunities that arise when local state and transnational actors recognise misrecognise or deny recognition of armed non state actors By studying key asymmetric conflicts through the prism of recognition it offers an innovative perspective on the interactions between armed non state actors and state actors In what contexts does granting recognition to armed non state actors foster conflict transformation What happens when governments withhold recognition or label armed non state actors in ways they perceive as misrecognition The authors examine the ambivalence of recognition processes in violent conflicts and their sometimes unintended consequences The volume shows that while non recognition prevents conflict transformation the recognition of armed non state actors may produce counterproductive precedents and new modes of exclusion in intra state and transnational politics Writing and the Rise of Finance Colin Nicholson,1994-07-14 The early eighteenth century saw a far reaching financial revolution in England whose impact on the literature of the period has hitherto been relatively unexplored In this original study Colin Nicholson reads familiar texts such as Gulliver s Travels The Beggar s Opera and The Dunciad as capital satires responding to the social and political effects of the installation of capitalist financial institutions in London The founding of the Bank of England and the inauguration of the National Debt permanently altered the political economy of England the South Sea Bubble disaster of 1721 educated a political generation into the money markets While they invested in stocks and shares Swift Pope and Gay conducted a campaign against the civic effects of these new financial institutions Conflict between these writers inherited discourse of civic humanism and the transformations being undergone by their own society is shown to have had a profound effect on a number of key literary texts **The Literary Career of Mark Akenside** Robin Dix,2006 This book offers the fullest critical account to date of the literary career of Mark Akenside 1721 1770 In the course of the discussion Akenside s literary achievements and his contributions to the vibrant cultural scene of the mid eighteenth century are amply demonstrated as well as his intellectual originality his inventive use of source material and his influence on poets and philosophers in the late eighteenth century and the Romantic period Publisher s website **Satire and the Transformation of Genre** Leon Guilhamet,2016-11-11 This book is a volume in the Penn Press Anniversary Collection To mark its 125th anniversary in 2015 the University of Pennsylvania Press rereleased more than 1 100 titles from Penn Press s distinguished backlist from 1899 1999 that had fallen out of print Spanning an entire century the Anniversary Collection offers peer reviewed scholarship in a wide range of subject areas **Epic into Novel** Henry Power,2015-02-19 Epic into Novel looks at Henry Fielding s adaptation of classical epic in the context of what he called the Trade of authoring Fielding was always keen to stress that his novels were modelled on classical literature Equally he was fascinated by and wrote at length about the fact that they were objects to be consumed He recognised that he wrote in an age when an author had to consider himself as one who keeps a public Ordinary at which all persons are welcome for their Money In describing his work he alludes both to Homeric epic and to contemporary cookery books This tension in Fielding s work has gone unexplored a

tension between his commitment to a classical tradition and his immersion in a print culture in which books were consumable commodities This interest in the place of the ancients in a world of consumerism was inherited from the previous generation of satirists The Scriblerians among them Jonathan Swift John Gay and Alexander Pope repeatedly suggest in their work that classical values are at odds with modern tastes and appetites Fielding who had idolised these writers as a young man developed many of their satiric routines in his own writing But Fielding broke from Swift Gay and Pope in creating a version of epic designed to appeal to modern consumers Henry Power provides new readings of works by Swift Gay and Pope and of Fielding s major novels He examines Fielding s engagement with various Scriblerian themes primarily the consumption of literature but also the professionalisation of scholarship and the status of the author and shows ultimately that Fielding broke with the Scriblerians in acknowledging and celebrating the influence of the marketplace on his work     Feeling Beauty G. Gabrielle Starr,2015-01-30 A theory of the neural bases of aesthetic experience across the arts which draws on the tools of both cognitive neuroscience and traditional humanist inquiry In *Feeling Beauty* G Gabrielle Starr argues that understanding the neural underpinnings of aesthetic experience can reshape our conceptions of aesthetics and the arts Drawing on the tools of both cognitive neuroscience and traditional humanist inquiry Starr shows that neuroaesthetics offers a new model for understanding the dynamic and changing features of aesthetic life the relationships among the arts and how individual differences in aesthetic judgment shape the varieties of aesthetic experience Starr a scholar of the humanities and a researcher in the neuroscience of aesthetics proposes that aesthetic experience relies on a distributed neural architecture a set of brain areas involved in emotion perception imagery memory and language More important it emerges from networked interactions intricately connected and coordinated brain systems that together form a flexible architecture enabling us to develop new arts and to see the world around us differently Focusing on the sister arts of poetry painting and music Starr builds and tests a neural model of aesthetic experience valid across all the arts Asking why works that address different senses using different means seem to produce the same set of feelings she examines particular works of art in a range of media including a poem by Keats a painting by van Gogh a sculpture by Bernini and Beethoven s *Diabelli Variations* Starr s innovative interdisciplinary analysis is true to the complexities of both the physical instantiation of aesthetics and the realities of artistic representation     Jane Austen on Screen Gina MacDonald,Andrew MacDonald,2003-10-09 This collection of essays explores the literary and cinematic implications of translating Austen s prose into film Contributors raise questions of how prose fiction and cinema differ of how mass commercial audiences require changes to script and character and of how continually remade films evoke memories of earlier productions The essays represent widely divergent perspectives from literary purists suspicious of filmic renderings of Austen to film makers who see the text as a stimulus for producing exceptional cinema This comprehensive study will be of interest to students and teachers alike     **The English Literature Companion** Julian Wolfreys,2017-09-16 What does it mean to study English Literature Have can you navigate and get the

Cope, 2024-05-07 Seeking to honor and extend the critical legacy of Howard Weinbrot this volume re examines rebuilds and upgrades the most prominent pillars of long eighteenth century scholarship The collection is divided into four thematic sections beginning with a series of chapters offering fresh analyses of Swift Dryden Hogarth and other major authors and artists of the period In the sections that follow the contributors not only explore biographies of both highly esteemed figures and notorious deviants but also investigate the very concept of Enlightenment as it has evolved from the eighteenth century to today The final section features chapters that probe the complex interaction of identity persona and place traversing the countless locales in which the British and the international eighteenth century emerged The volume ultimately covers a range of experience that extends from the gallows to the landscape garden and from heroic antiquity to Romantic era France Juxtaposing the local and particular against the grand and universal Howard Weinbrot and the Precincts of Enlightenment testifies to the complexity and ongoing significance of eighteenth century culture

**Satire** Dustin Griffin, 2021-03-17 Here is the ideal introduction to satire for the student and for the experienced scholar an occasion to reconsider the uses problems and pleasures of satire in light of contemporary theory Satire is a staple of the literary classroom Dustin Griffin moves away from the prevailing moral didactic approach established thirty some years ago to a more open view and reintegrates the Menippean tradition with the tradition of formal verse satire Exploring texts from Aristophanes to the moderns with special emphasis on the eighteenth century Griffin uses a dozen figures Horace Juvenal Persius Lucian More Rabelais Donne Dryden Pope Swift Blake and Byron as primary examples Because satire often operates as a mode or procedure rather than as a genre Griffin offers not a comprehensive theory but a set of critical perspectives Some of his topics are traditional in satire criticism the role of satire as moralist the nature of satiric rhetoric the impact of satire on the political order Others are new the problems of satire and closure the pleasure it affords readers and writers and the socioeconomic status of the satirist Griffin concludes that satire is problematic open ended essayistic and ambiguous in its relationship to history uncertain in its political effect resistant to formal closure more inclined to ask questions than provide answers and ambivalent about the pleasures it offers The

**Music in the London Theatre from Purcell to Handel** Colin Timms, Bruce Wood, 2017-06-29 This book is concerned with a hundred years of musical drama in England. It charts the development of the genre from the theatre works of Henry Purcell and his contemporaries to the dramatic oratorios of George Frideric Handel and his. En route it investigates the objections to all sung drama in English that were articulated in the decades around 1700, various proposed solutions, the importation of Italian opera and the creation of the dramatic oratorio. English drama all sung but not staged. Most of the constituent essays take an in-depth look at a particular aspect of the process, while others draw attention to dramatic qualities in non-dramatic works that also were performed in the theatre. The journey from Purcell to Handel illustrates the vigour and vitality of English theatrical and musical traditions and Handel's dramatic oratorios and other settings of English words answer questions posed before he was born.

Imitating Authors Colin Burrow, 2019-05-16 *Imitating Authors* is a major study of the theory and practice of imitation, the imitation of one author by another, from antiquity to the present day. It extends from early Greek texts right up to recent fictions about clones and artificial humans and illuminates both the theory and practice of imitation. At its centre lie the imitating authors of the English Renaissance, including Ben Jonson and the most imitated imitator of them all, John Milton. *Imitating Authors* argues that imitation was not simply a matter of borrowing words or of alluding to an earlier author. Imitators learnt practices from earlier writers. They imitated the structures and forms of earlier writing in ways that enabled them to create a new style which itself could be imitated. That made imitation an engine of literary change. *Imitating Authors* also shows how the metaphors used by theorists to explain this complex practice fed into works which were themselves imitations and how those metaphors have come to influence present-day anxieties about imitation, human beings and artificial forms of intelligence. It explores relationships between imitation and authorial style, its fraught connections with plagiarism and how emerging ideas of genius and intellectual property changed how imitation was practised. In refreshing and jargon-free prose, Burrow explains not just what imitation was in the past but how it influences the present and what it could be in the future. *Imitating Authors* includes detailed discussion of Plato, Roman rhetorical theory, Virgil, Lucretius, Petrarch, Cervantes, Ben Jonson, Milton, Pope, Wordsworth, Mary Shelley and Kazuo Ishiguro.
