The French Radical Party in the 1930's Peter J. Larmour, 1964 **The French Radical Party and European Integration** Francis O'Neill, 1981 **The French Radical Party in the 1930's** Peter J. Larmour, 1964-01-01 **Crisis and Renewal in France, 1918-1962** Kenneth Mouré, Martin S. Alexander, 2002-02-01 Since 1914 the French state has faced a succession of daunting and at times almost insurmountable crises The turbulent decades from 1914 to 1969 witnessed near defeat in 1914 economic and political crisis in 1926 radical political polarization in the 1930s military conquest in 1940 the deep division of France during the Nazi Occupation political reconstruction after 1944 de colonization with threatening civil war provoked by the Algerian crisis and dramatic postwar modernization However this tumultuous period was not marked just by crises but also by tremendous change Economic social and political modernization transformed France in the twentieth century restoring its confidence and its influence as a leader in global economic and political affairs This combination of crises and renewal has received surprisingly little attention in recent years The present collection show cases significant new scholarship reflecting greater access to French archival sources and focuses on the role of crises in fostering modernization in areas covering politics economics women diplomacy and war *The French Radical Party in the 1930's* Peter I. Larmour, 1964 **The Politics of French Business 1936-1945** Richard Vinen, 2002-08-08 A re examination of French industry s relations with the Popular Front government and its Vichy successor *The Right in France from the Third Republic to Vichy* Kevin Passmore, 2012-11-01 The Right in France from the Third Republic to Vichy provides a new history of parliamentary conservatism and the extreme right in France during the successive crises of the years from 1870 to 1945 In it Kevin Passmore charts royalist opposition to the newly established Republic the emergence of the nationalist extreme right in the 1890s and the parallel development of republican conservatism He moves on to the hitherto unstudied story of conservatism in during the Great War and then to the Right s victory in the 1919 elections Passmore charts the crisis of parliamentary conservatism in the interwar years and explores the Right s response to the rise of Fascism and Communism He concludes by placing the Vichy regime which governed France under the German Occupation in the context of the history of conservative politics This history is related to the struggle of those who saw themselves as elites to preserve their leadership in the age of the masses Passmore shows that conservatives of all stripes shared a common culture notably including organicism and crowd theory but that different factions used these ideas in different ways for different purposes Whereas previous studies have been primarily concerned to categorize conservatives groups for example as fascist liberal or modern this study examines the way in which competing groups used such terms in complex struggles amongst themselves and with the left The study is based on considerable archival research as well as on knowledge of the vast body of recently published research in English and French *Parties and Power in Modern Argentina 1930-1946* Alberto Ciria, 1974-01-01 An analysis of the immediate causes of Peronism in its formative stages is included in this study of

Frenemies Mark L. Haas, 2022-01-15. In *Frenemies* Mark L. Haas addresses policy guiding puzzles such as: Why do international ideological enemies sometimes overcome their differences and ally against shared threats? Why just as often do such alliances fail? Alliances among ideological enemies confronting a common foe or frenemy alliances are unlike coalitions among ideologically similar states facing comparable threats. Members of frenemy alliances are perpetually torn by two powerful opposing forces. Haas shows that shared material threats push these states together while ideological differences pull them apart. Each of these competing forces has dominated the other at critical times. This difference has resulted in stable alliances among ideological enemies in some cases but the delay dissolution or failure of these alliances in others. Haas examines how states susceptibility to major domestic ideological changes and the nature of the ideological differences among countries provide the key to alliance formation or failure. This sophisticated framework is applied to a diverse range of critical historical and contemporary cases from the failure of British and French leaders to ally with the Soviet Union against Nazi Germany in the 1930s to the likely evolution of the United States alliance system against a rising China in the early 21st century. In *Frenemies* Haas develops a groundbreaking argument that explains the origins and durability of alliances among ideological enemies and offers policy guiding perspectives on a subject at the core of international relations.

Diplomacy, War, and Technology Since 1830 Maurice Pearton, 1984. No other book combines so much of modern military history with so rich an exploration of related factors in industry, finance, education and technology as well as statecraft. Combining strands of history from all these areas, Pearton makes an unusually complete and cogent case for the breakdown of traditional distinctions between the civil and the military and even between war and peace. This is an excellent work of military and economic history.

Russell F. Weigley, author of *The American Way of War*. Pearton's historical approach adds needed depth and perspective to many contemporary discussions of the arms problem. This is an illuminating and incisive inquiry into a phenomenon of unquestioned importance.

Christian Democracy in France (Routledge Revivals) R. E. M. Irving, 2010-03-23. Christian Democracy which may briefly be defined as organised political action by Catholic democrats has been a major political force in Western Europe since the Second World War, not least in France. The aim of this book, first published in 1973, is to trace the Development of Christian Democracy in France from its origins in the 1830s to the present day, discussing its theories and its importance in French history and politics with particular but by no means exclusive reference to the Fourth Republic, 1946-58, when the MRP was one of the key centre parties. Dr Irving provides a thorough analysis of MRP's economic, foreign and colonial policies and gives reasons for the

relative decline of French Christian Democracy in the 1960s This French movement has been little understood in Britain and a thorough history has been badly needed This study will be valuable to all those who in the context of a United Europe wish to understand the political forces at work at its conception It will be valuable especially to students of modern history and politics

Politics In Chile Lois Oppenheim, 2018-05-04 The third edition of Politics in Chile provides significantly updated coverage of Chilean politics and economic development from the return to civilian rule in 1990 to the 2006 election and early administration of Socialist Michelle Bachelet Chile's first woman president Lois Hecht Oppenheim focuses on recent efforts to reconstruct democratic practices and institutions including resolving such sensitive and lingering issues as human rights violations under Pinochet and civil military relations Chapters on the contemporary politics and economics under the civilian Concertaci governments are largely rewritten for this edition Rather than focusing on the search for development the third edition considers in greater depth the exceptionalism of the Chilean economic experiment through successive stages of stability socialism and neoliberalism

The Rise and Fall of the People's Parties Pepijn Corduwener, 2023 The Rise and Fall of the People's Parties explores the striking parallels between the history of democracy and that of the people's parties since 1918 It demonstrates that understanding the rise and fall of the people's parties is pivotal to understanding the contemporary crisis of democracy

The Fascist Challenge and the Policy of Appeasement Wolfgang J. Mommsen, Lothar Kettenacker, 2021-11-21 This book first published in 1983 illustrates the domestic and internal dimension of appeasement and explores the political options open to the western powers in the run up to the Second World War It looks at the factors pointing in the direction of a general settlement with the dictators limitation of resources and strategic over commitment by Britain economic decline and financial exhaustion of France lack of support from the United States and the Soviet Union

The Republic of Men Geoff Read, 2014-05-12 In The Republic of Men Geoff Read explores the intersection of gender bias and the eight most important political parties in interwar France breaking new scholarly ground in profound ways The first to compare gender discourse across the political spectrum in a national context and trace the origins of the fascist new man in other political traditions Read evaluates the impact of gender discourse upon policy during a pivotal period in French history Skillfully exploring how differing political traditions from left to right influenced and reacted to each other Read shows that regardless of the party predominant notions of gender manifested themselves in misogyny and double standards when it came to women's emancipation Despite the hostility of male politicians and party members and despite women's exclusion from both parliament and the vote Read argues that women were nonetheless crucial to politics and visibly prominent within almost every political party in interwar France Read explains this seeming contradiction by demonstrating the existence of a conservative trend in gender politics that by the mid 1930s had enveloped even the Communist Party Through his masterful analysis Read closes significant gaps in the existing historiography and presents a truly revisionist assessment of early twentieth century French politics

France and Germany in the South China Sea, c.

1840-1930 Bert Becker, 2021-07-02 This book explores imperial power and the transnational encounters of shipowners and merchants in the South China Sea from 1840 to 1930 With British Hong Kong and French Indochina on its northern and western shores the Asian Mediterranean was for almost a century a crucible of power and an axis of economic struggle for coastal shipping companies from various nations Merchant steamers shipped cargoes and passengers between ports of the region Hong Kong the global port city and the colonial ports of Saigon and Haiphong developed into major hubs for the flow of goods and people while Guangzhouwan survived as an almost forgotten outpost of Indochina While previous research in this field has largely remained within the confines of colonial history this book uses the examples of French and German companies operating in the South China Sea to demonstrate the extent to which transnational actors and business networks interacted with imperial power and the process of globalisation
