through the concept of virtue and how it applies to consciousness education and the future Dr Lombardo emphasizes the one key virtue wisdom that provides the center of gravity around which all other character virtues revolve Indeed if any one concept unites the majority of essays in this collection it is wisdom In *The Wisdom of Future Consciousness* the author argues that wisdom is the highest expression of future consciousness and systematically describes the numerous connections between wisdom and heightened future consciousness Further according to the author wisdom is the key ideal that we should model and teach within education now and in the future This argument
