White Mountain National Forest (N.F.), Loon Mountain Ski Resort Development and Expansion Project ,2002
Ski ,1980-10 **Ski** ,1980-02 **Skiing** ,1973-02 **Sports Science Research and Technology Support** Jan Cabri,João Barreiros,Pedro Pizarat Correia,2015-10-07 This book constitutes thoroughly revised and selected papers from the Second International Congress on Sports Science Research and Technology Support icSPORTS 2014 held in Rome Italy in October 2014 The 8 thoroughly revised and extended papers presented in this volume were carefully reviewed and selected from originally 131 submissions **Teaching Beginners to Ski** Dr. John T. Whiting, **Adirondack Skier Market** Sno-Engineering Inc,1970 **Modelling Nature: An Opinionated Introduction to Scientific Representation** Roman Frigg,James Nguyen,2020-09-02 This monograph offers a critical introduction to current theories of how scientific models represent their target systems Representation is important because it allows scientists to study a model to discover features of reality The authors provide a map of the conceptual landscape surrounding the issue of scientific representation arguing that it consists of multiple intertwined problems They provide an encyclopaedic overview of existing attempts to answer these questions and they assess their strengths and weaknesses The book also presents a comprehensive statement of their alternative proposal the DEKI account of representation which they have developed over the last few years They show how the account works in the case of material as well as non material models how it accommodates the use of mathematics in scientific modelling and how it sheds light on the relation between representation in science and art The issue of representation has generated a sizeable literature which has been growing fast in particular over the last decade This makes it hard for novices to get a handle on the topic because so far there is no book length introduction that would guide them through the discussion Likewise researchers may require a comprehensive review that they can refer to for critical evaluations This book meets the needs of both groups *The Science of Alpine Ski Racing* James Pritchard,Jim Taylor,2022-12-29 Alpine skiing or downhill skiing is defined by six disciplines Downhill Super G Giant Slalom Slalom Parallel and Combined that test the athletes technical abilities and speed It has long been a popular sport with many national and international championships and is a mainstay of the Winter Olympic Games The Science of Alpine Ski Racing is the first book to discuss the science coaching research and training of elite to recreational alpine ski racers for optimal performance This book brings together the complex physiological biomechanical and technical components of the sport in a practical manner with which coaches and researchers alike can adopt to elicit better performance outcomes for athletes Literature of this kind has never been formally researched and published specifically for the sport of alpine ski racing making it both unique and a cornerstone to the discipline Backed by cutting edge research the book provides practical guidance on preparing athletes for high performance and understanding the core tenets of sports science underpinning it striking a balance between the complex theoretical and practical components coaches and athletes must prepare for in alpine ski

racing Accessibly written and featuring contributions from world leading experts The Science of Alpine Ski Racing covers key topics of health training and high performance in the sport and will be vital reading for youth coaches professional ski instructors strength and conditioning coaches and sports science staff associated with winter sports programs as well as applied researchers looking for a model to apply to other sports James Jimmy Pritchard is a human performance specialist sports scientist who has trained and consulted athletes at the Olympic NHL NFL and Division I collegiate level Specific to alpine ski racing he served as the Director of Strength and Conditioning for Ski and Snowboard Club Vail in Vail Colorado where he helped prepare a long list of US Ski Team athletes including Alice McKennis Mikaela Shiffrin and Tess Johnson He is a certified strength and conditioning specialist CSCS as well as registered strength and conditioning coach RSCC through the NSCA working with athletes and human performance program managers on a regular basis to find optimal human performance solutions James has presented at conferences around the United States discussing long term athlete development written over 150 articles for several media outlets has been published in the NSCA s Strength and Conditioning Journal and taught courses about strength and conditioning at Colorado Mountain College James holds a BSc in Exercise Science from Colorado Mesa University and MSc degree in Exercise Science from Edith Cowan University Jim Taylor PhD Psychology is an internationally recognized authority on the psychology of sport and parenting He has consulted with athletes coaches and parents in tennis skiing cycling triathlon track and field swimming football golf baseball fencing and many other sports for more than 30 years Dr Taylor is the author of 17 books and the editor of 4 textbooks on sport psychology He is also a former world ranked alpine ski racer second degree black belt in karate marathon runner and Ironman triathlete Ski ,1989-05 *The New Guide to Skiing* Martin Heckelman,1995-09-17 Packed with specially commissioned freeze frame photographic sequences of a highly successful instructor demonstrating his skills this is the definitive guide to one of today s most popular participation sports Over 350 full color photos and diagrams Ski ,1994-11
