Slavery Abolitionism and Empire in India 1772 1843 Andrea Major asks why at a time when the East India Company's expansion in India British abolitionism and the missionary movement were all at their height was the existence of slavery in India so often ignored denied or excused By exploring Britain's ambivalent relationship with both real and imagined slaveries in India and the official evangelical and popular discourses that surrounded them she seeks to uncover the various political economic and ideological agendas that allowed East Indian slavery to be represented as qualitatively different from its transatlantic counterpart

**Writing the History of Slavery** David Stefan Doddington, Enrico Dal Lago, 2022-01-13

Exploring the major historiographical theoretical and methodological approaches that have shaped studies on slavery this addition to the Writing History series highlights the varied ways that historians have approached the fluid and complex systems of human bondage domination and exploitation that have developed in societies across the world The first part examines more recent attempts to place slavery in a global context touching on contexts such as religion empire and capitalism In its second part the book looks closely at the key themes and methods that emerge as historians reckon with the dynamics of historical slavery These range from politics economics and quantitative analyses to race and gender to psychohistory history from below and many more Throughout examples of slavery and its impact are considered across time and place in Ancient Greece and Rome Medieval Europe colonial Asia Africa and the Americas and trades throughout the Atlantic and Indian Oceans Also taken into account are thinkers from Antiquity to the 20th century and the impact their ideas have had on the subject and the debates that follow This book is essential reading for students and scholars at all levels who are interested in not only the history of slavery but in how that history has come to be written and how its debates have been framed across civilizations

*The Anti-Slavery Project* Joel Quirk, 2011-05-26 It is commonly assumed that slavery came to an end in the nineteenth century While slavery in the Americas officially ended in 1888 millions of slaves remained in bondage across Africa Asia and the Middle East well into the first half of the twentieth century Wherever laws against slavery were introduced governments found ways of continuing similar forms of coercion and exploitation such as forced bonded and indentured labor Every country in the world has now abolished slavery yet millions of people continue to find themselves subject to contemporary forms of slavery such as human trafficking wartime enslavement and the worst forms of child labor The Anti Slavery Project From the Slave Trade to Human Trafficking offers an innovative study in the attempt to understand and eradicate these ongoing human rights abuses In The Anti Slavery Project historian and human rights expert Joel Quirk examines the evolution of political opposition to slavery from the mid eighteenth century to the present day Beginning with the abolitionist movement in the British Empire Quirk analyzes the philosophical economic and cultural shifts that eventually resulted in the legal abolition of slavery By viewing the legal abolition of slavery as a cautious first step rather than the end of the story he demonstrates that modern anti slavery activism can be best understood as the latest phase in an evolving response to the historical shortcomings of earlier forms of political activism By exposing the historical and cultural roots of

contemporary slavery The Anti Slavery Project presents an original diagnosis of the underlying causes driving one of the most pressing human rights problems in the world today It offers valuable insights for historians political scientists policy makers and activists seeking to combat slavery in all its forms

**European Slave Trading in the Indian Ocean, 1500-1850** Richard B. Allen, 2015-01-01 Between 1500 and 1850 European traders shipped hundreds of thousands of African Indian Malagasy and Southeast Asian slaves to ports throughout the Indian Ocean world The activities of the British Dutch French and Portuguese traders who operated in the Indian Ocean demonstrate that European slave trading was not confined largely to the Atlantic but must now be viewed as a truly global phenomenon European slave trading and abolitionism in the Indian Ocean also led to the development of an increasingly integrated movement of slave convict and indentured labor during the late eighteenth and early nineteenth centuries the consequences of which resonated well into the twentieth century Richard B Allen's magisterial work dramatically expands our understanding of the movement of free and forced labor around the world Drawing upon extensive archival research and a thorough command of published scholarship Allen challenges the modern tendency to view the Indian and Atlantic oceans as self contained units of historical analysis and the attendant failure to understand the ways in which the Indian Ocean and Atlantic worlds have interacted with one another In so doing he offers tantalizing new insights into the origins and dynamics of global labor migration in the modern world

**Recognizing the Psychological and Cultural Strengths of Black Americans** Robert T. Carter, 2024-09-20 This book examines the cultural beliefs and practices of Black folks in relation to psychological strength Divided into four parts the book begins with a discussion on the history of African civilizations including an analysis of faiths architecture and cultural diversity of the continent followed by a meaningful dialogue on the history of slavery and plantations in North America The later sections are a study on the contribution of the African American community towards America's prosperity The book explores cultural values as a source of power and uses historical social and psychological research to construct a framework of Black cultural values and psychological resolve The author offers practical applications and interventions to demonstrate how this framework can be applied to training and policy matters on both individual and systemic levels Recognizing the Psychological and Cultural Strengths of Black Americans is essential reading for students and academics in the fields of Psychology Sociology Critical Race Theory Political Science and other related disciplines It will also be a useful resource for professionals including policy makers psychologist counsellors educators and social workers

**The Poverty of Slavery** Robert E. Wright, 2017-02-20 This ground breaking book adds an economic angle to a traditionally moral argument demonstrating that slavery has never promoted economic growth or development neither today nor in the past While unfree labor may be lucrative for slaveholders its negative effects on a country's economy much like pollution drag down all members of society Tracing the history of slavery around the world from prehistory through the US Antebellum South to the present day Wright illustrates how slaveholders burden communities and governments with the task of maintaining the

system while preventing productive individuals from participating in the economy. Historians, economists, policymakers, and anti-slavery activists need no longer apologize for opposing the dubious benefits of unfree labor. Wright provides a valuable resource for exposing the hidden price tag of slaving to help them pitch antislavery policies as matters of both human rights and economic well-being. *Debt and Slavery in the Mediterranean and Atlantic Worlds* Alessandro Stanziani, 2015-10-06

Filling a significant gap in the historiography, the essays in this volume show that debt slavery has played a crucial role in the economic history of numerous societies which continues even today. **New Studies in the History of American Slavery** Edward E. Baptist, Stephanie M. H. Camp, 2006

These essays by some of the most prominent young historians writing about slavery fill gaps in our understanding of such subjects as enslaved women, the Atlantic and internal slave trades, the relationships between Indians and enslaved people, and enslavement in Latin America. Inventive and stimulating, the essays model the blending of methods and styles that characterizes the new cultural history of slavery's social, political, and economic systems. Several common themes emerge from the volume: among them, the correlation between race and identity, the meanings contained in family and community relationships, gender and life's commonplaces, and the literary and legal representations that legitimated and codified enslavement and difference. Such themes signal methodological and pedagogical shifts in the field away from master-slave or white-black race relations models toward perspectives that give us deeper access to the mental universe of slavery. Topics of the essays range widely, including European ideas about the reproductive capacities of African women and the process of making race in the Atlantic world, the contradictions of the assimilation of enslaved African American runaways into Creek communities, the consequences and meanings of death to Jamaican slaves and slave owners, and the tensions between midwifery as a black cultural and spiritual institution and slave midwives as health workers in a plantation economy. Opening our eyes to the personal, the contentious, and even the intimate, these essays call for a history in which both enslaved and enslavers acted in a vast human drama of bondage and freedom, salvation and damnation, wealth and exploitation. **An Inquiry Into the History of Slavery** Thomas C. Thornton, 1841

Illustrious Heritage, An: The History Of Tan Tock Seng And Family Bak Lim Kua, How Seng Lim, Roney Tan, 2022-07-27

Tan Tock Seng, one of Singapore's most illustrious pioneers, was an influential Chinese community leader. In the early 1820s, he responded to Sir Stamford Raffles' call to open up Singapore for trade and later became a prominent entrepreneur, a social leader of the Chinese community, and a philanthropist. He also spearheaded the building of the Thian Hock Keng Temple as a rallying point for his fellow clansmen, as well as the Tan Tock Seng Hospital to provide medical services for people in Singapore. This book provides a comprehensive account of Tan Tock Seng's life, tracing his life and legacy, as well as the contributions of himself and his family. It also includes prominent family members such as Tan Kim Ching, Tan Teck Guan, Tan Boo Liat, Tan Chay Yan, and Tan Hoon Siang. The fruits of their contributions have greatly impacted communities in Singapore, as well as other countries in the region. In delineating the Tan family's life and contributions, perspectives into the social

political and business workings of the lives of Overseas Chinese immigrants during the colonial era are also brought to light. Their legacy beyond Singapore's shores also highlights the regional networks of business and Chinese settlement in Nanyang. These stories bring complexity and nuance to broad stroke developments, events and milestones in Singapore history, enhancing popular understanding and appreciation of Singapore.

*The History of Slavery and the Slave Trade, Ancient and Modern* William O. Blake, 1858

*Critical Readings on Global Slavery* Damian Alan Pargas, Felicia Roşu, 2017-12-05

The study of slavery has grown strongly in recent years as scholars working in several disciplines have cultivated broader perspectives on enslavement in a wide variety of contexts and settings. *Critical Readings on Global Slavery* offers students and researchers a rich collection of previously published works by some of the most preeminent scholars in the field. With contributions covering various regions and time periods, this anthology encourages readers to view slave systems across time and space as both ubiquitous and interconnected and introduces those who are interested in the study of human bondage to some of the most important and widely cited works in slavery studies.
