Script Culture and the American Screenplay Kevin Alexander Boon, 2008-01-10 By considering the screenplay as a literary object worthy of critical inquiry this volume breaks new ground in film studies Though the history of the screenplay is as long and rich as the history of film itself critics and scholars have neglected it as a topic of serious research Script Culture and the American Screenplay treats the screenplay as a literary work in its own right presenting analyses of screenplays from a variety of frameworks including feminism Marxism structuralism philosophy and psychology In distancing the text of screenplays from the on screen performance typically associated with them Kevin Alexander Boon expands the scope of film studies into exciting new territory with this volume Script Culture and the American Screenplay is divided into two parts Part 1 provides a general background for screenplay studies tracing the evolution of the screenplay from the early shot lists and continuities of George M. Seldes and Thomas Harper Ince to the more detailed narratives of contemporary works Part 2 offers specific primarily thematic critical examinations of screenplays along with discussions of the original screenplay and the screenplay adaptation In all Boon explains that screenplay criticism distinguishes itself from traditional film studies in three major ways The primary focus of screenplay criticism is on the screenplay rather than the film the focus of screenplay studies is on the screenwriter rather than the director and screenplay criticism like literary criticism is written to illuminate a reader's understanding of the text Boon demonstrates that whether we are concerned with aesthetics and identifying rules for distinguishing the literary from the non literary or whether we align ourselves with more contemporary theories which recognize texts as distinguishable in their inter relationships and marked difference screenplays constitute a rich cache of works worthy of critical examination Film scholars as well as students of film creative writing and literary studies will appreciate this singular volume

Woodard II, 2022-05-26 Stories and quotes about life and all the challenges life brings **The New Biographical Dictionary of Film** David Thomson, 2010 Thomson independent scholar writing of The Biographical Dictionary of Film aka A Biographical Dictionary of the Cinema 1975 edition described it as a personal opinionated and obsessive biographical dictionary of the cinema Thirty five years and several editions later that description still holds true of this expanded work The new dictionary summarizes salient facts about its subjects lives and discusses their film credits in terms of the quality of the filmmakers work In ambition it has competitors including Leslie Halliwell's various editions of Halliwell's Filmgoers

Companion 12th ed 1997 and Halliwell's Who's Who in the Movies edited by John Walker 4th ed rev and updated 2006 which cover films and technical terms categories not included in Thomson's but whose entries are neutral and exceedingly brief. Additionally Francophile Richard Roud's edited Cinema: A Critical Dictionary The Major Filmmakers 2 v 1980 is as passionate a work as Thomson's but narrower in scope with entries written by various experts rather than only by Roud. Finally the multivolume magnum opus The International Dictionary of Films and Filmmakers 4th ed 2000 ed by T. Pendergast and S. Pendergast 2nd ed ed by N. Thomas v 1 CH May 91 1st ed ed by C. Lyon v 1 2 CH Jan 85 v 3 CH Apr 87 v 4 5 CH Jun 88 covers everything: films, directors, actors, writers, and production artists with generous, measured, scholarly entries and lavish illustrations. However, it looms large and heavy, unlike the handy one-volume work by Thomson. Arguably Thomson's work for its scope is the most fun, the most convenient, and the most engaging title. All libraries supporting people interested in film should buy it. It will get lots of use and provide very good value for the money. Summing Up: Highly recommended. Genre Screenwriting Stephen V. Duncan, 2014-09-18. It's simple: films need to have commercial value for the studios to produce them, distributors to sell them, and theater chains to screen them. While talent definitely plays a part in the writing process, it can be the well-executed formulaic approaches to the popular genres that will first get you noticed in the industry. Genre Screenwriting: How to Write Popular Screenplays That Sell does not attempt to probe in the deepest psyche of screenwriters and directors of famous or seminal films, nor does it attempt to analyze the deep theoretic machinations of films. Duncan's simple goal is to give the reader, the screenwriter, a practical guide to writing each popular film genre. Employing methods as diverse as using fairy tales to illustrate the how-to process for each popular genre and discussing these popular genres in modern television and its relation to its big screen counterpart, Duncan provides a one-stop shop for novices and professionals alike.
