Star Quality:

Star Studies Martin Shingler, 2019-07-25 Martin Shingler presents the mother volume for Palgrave's Film Stars series in three easily navigable chapters in which he provides a summative and instructive account of star studies for today's film student. Via a critical evaluation of the work of leading film scholars he provides a convincing argument for how this important area of film studies has evolved. Building on this he offers some new directions for star scholarship and ends by offering the film student a useful set of themes and issues for his or her own investigation. Star Studies is the perfect companion for the student who wishes to foster further research on stardom across a wide range of contexts from national cinemas to mainstream and marginal cinemas to different historical periods and beyond. **A Modern Guide to Sports Economics**

Reshaping Health Systems Joshua M. Liao, Jonathan A. Staloff, Joseph H. Joo, 2024-10-04 Reshaping Health Systems: What Drives Health Care and How You Can Change It illuminates how forces in the health care system's factors impact patient care before outlining strategies/systems solutions to enact change and improve care delivery. Using a case-based format that mirrors real-world scenarios involving patients and clinicians, Drs. Liao, Staloff, and Joo impart foundational health systems knowledge and skills in ways that are intuitive, enjoyable, and accessible for clinicians and health system leaders alike. The book is divided into two parts. Part I follows the journey of a patient navigating systems factors that influence her care across care settings. Part II follows the journey of a clinician working to improve care delivery using systems solutions from fields such as quality improvement, design thinking, change management, and implementation science. Together, the book provides foundational and actionable training in health systems for a wide range of clinical and non-clinical team members and leaders in health care. Readers will not only understand how our health care system works; they will be equipped to improve it. **A Guide for Nursing Home**
