Stars Away:

Chasing Stars Boris Groysberg, 2012-03-25 It is taken for granted in the knowledge economy that companies must employ the most talented performers to compete and succeed Many firms try to buy stars by luring them away from competitors But Boris Groysberg shows what an uncertain and disastrous practice this can be Chasing Stars offers profound insights into the fundamental nature of outstanding performance It also offers practical guidance to individuals on how to manage their careers strategically and to companies on how to identify develop and keep talent Publisher s description *Star Struck*

Udit Basu, 2011-11 The book is about how a twelve year old sees the universe Through this book I have tried to arouse in other kids my age interest about the tiny dots of light that one can see in the night sky I hope that after reading the book many kids like me around the world will look at the night sky differently **The Star-Crowned Kings** Rob

Chilson, 2020-10-19 The human race has split into two groups ordinary people like Race and his mother and sister and the Starlings humans with godlike telekinetic powers Their powers enable them to carry spaceships to the stars and settle many planets while ordinary folk are no better than slaves Now Race finds that he has Starling powers too Excerpt First correction to his visualization there was no stream of traffic He saw and sensed three or four ships as many more might be out of his range They were running right into Slavin s trap His stomach lighter and more hollow with fear he extended his mind enfolding the fast little freighter within it moving it as he had moved Dinine between stars No acceleration was felt within the ship instead they felt Jacarantha s grip weakening draining away Race crowded the safety limit the air speed indicator whining The transponder beeped in warning before they were out of atmosphere and Race felt a wave of despair It was off not replying to that insistent question from space But where radar probed coherent light beams also would be The yellow sky had long since turned green then blue now royal purple set with stars The transponder carilloned and the radio barked at him harshly on the official space frequency Attention freighter halt at once or Another voice cut in as authoritatively but Race wasn t listening From low fast orbit overhead a ship had flashed up behind him he felt it swell A fast moving dot before him would be another He was keyed up intolerably and turned the ship now without a thought At his right hand was a handle in the hull Moving it swiveled a tele periscope that combined a low powered wide angle view with a high powered narrow angle one Immediately below their line of sight and precisely parallel to it was a glass tube about an inch in diameter and five inches long Connected to it was a pocket in the hull containing a handful of common glass marbles The whole apparatus was outside the airseal It was the work of but a moment to line the telescope and tube on the growing dot of light that was the first ship He had placed marbles at the bases of the firing ports before takeoff and now he flicked one as he had flicked pebbles like bullets in the Mountains of the Oron months before but with the fury of despair Involuntarily he blinked in time to save his vision The Starling ship erupted in a fireball that illuminated half the world below For half a second Race stared horrified at the destruction he had wrought Then fear blossomed like that spreading glare every Starling in the area knew

where he was now He swerved the ship away recklessly not hearing the clangor of the radiation alarm His mind swooped and reeled as things like planets whipped past in less than an eyeblink two of them almost on opposite sides of the ship one nearer than the other On the radio two voices were bellowing one Surrender the other Shoot Shoot Another thing flicked past invisible undetectable but to his mind seeming to have planetary mass yet to be incredibly tiny Marbles like his own flicked at near light speed Fear galvanized him His rolling gaze touched the Imperial Cluster and in a moment the ship was in incredible motion toward it Jacarantha shrank behind them *Hearings* United States. Congress. Senate. Committee on Commerce,1956

Selected Writings Galileo,2012-02-09 This generous selection from Galileo s writings contains all the essential texts Newly translated by Mark Davie and William R Shea the contents include full representation from his scientific masterpieces his contributions to the debate on science and religion and key documents from his trial before the Inquisition in 1633 *Ed Bolden and Black Baseball in Philadelphia* Courtney Michelle Smith,2017-01-26 For nearly 40 years Ed Bolden dominated black baseball in Philadelphia He owned two teams the Darby based Hilldale Club and the Philadelphia Stars and briefly led the Eastern Colored League which he founded Winner of two championships one with each team he experienced the highs and lows of the Negro Leagues He remained with the Stars until his death in 1950 which foreshadowed the dissolution of the Negro Leagues in the face of Major League Baseball s integration This book examines Bolden s leadership of both teams through economic downturns racial discrimination and two world wars **Einstein's Jury** Jeffrey Crelinsten,2016-05-31 Einstein s Jury is the dramatic story of how astronomers in Germany England and America competed to test Einstein s developing theory of relativity Weaving a rich narrative based on extensive archival research Jeffrey Crelinsten shows how these early scientific debates shaped cultural attitudes we hold today The book examines Einstein s theory of general relativity through the eyes of astronomers many of whom were not convinced of the legitimacy of Einstein s startling breakthrough These were individuals with international reputations to uphold and benefactors and shareholders to please yet few of them understood the new theory coming from the pen of Germany s up and coming theoretical physicist Albert Einstein Some tried to test his theory early in its development but got no results Others through toil and hardship great expense and perseverance concluded that it was wrong A tale of international competition and intrigue Einstein s Jury brims with detail gleaned from Crelinsten s far reaching inquiry into the history and development of relativity Crelinsten concludes that the well known British eclipse expedition of 1919 that made Einstein famous had less to do with the scientific acceptance of his theory than with his burgeoning public fame It was not until the 1920s when the center of gravity of astronomy and physics shifted from Europe to America that the work of prestigious American observatories legitimized Einstein s work As Crelinsten so expertly shows the glow that now surrounds the famous scientist had its beginnings in these early debates among professional scientists working in the glare of the public spotlight
