Since 1998, there have been many diagnoses, studies, and theories attempting to explain the East Asian economic crisis and the impact on major economic and financial sectors. This text aims to fill a gap in the literature by examining the effects on small and medium-sized enterprises. From early 1998, unemployment figures in the region rose rapidly, although large enterprises were not as yet engaged in corporate restructuring. Registered small and medium-sized enterprises (SMEs) and microenterprises were a major source of this unemployment, especially among unskilled and seasonal workers. This volume covers the debate in five ways. An introductory chapter presents an overview of the SME international experience, both in OECD and developing economies. Part I looks at the economic and social contribution of SMEs in Thailand before and after the 1997-1998 crisis, and Part II reviews government policy and SME promotion initiatives. Part III explores the assumption that local SMEs linked to large firms have been more resilient, while the concluding chapter suggests a range of policies which have been derived from experiences in places other than Thailand. **3 Nights in Thailand** Trevor Whitehead, 2019-05-01 A tale of two friends.
