Starving In The Shadow Of Plenty:

Starving in the Shadow of Plenty Ellen Levine, Loretta Schwartz-Nobel, 2001-05-31 President Ronald Reagan's chief advisor on domestic affairs announced in December 1980 that poverty has been virtually wiped out in the United States and the systems of government aid have been a brilliant success. Now *Starving in the Shadow of Plenty* lays bare the horrifying truth. For the first time since Robert Kennedy traveled the muddy back roads of Mississippi and the war on poverty rose and fell, starvation in America is documented. Loretta Schwartz-Nobel, twice winner of the Robert Kennedy Memorial Award for articles on hunger, has retraced Kennedy's steps and found that Marasmus and Kwashiorkor, the most extreme diseases of protein and calorie deficiency, still exist in the United States today. The author spent seven years traveling across the country and speaking to the hungry in rural shacks, urban ghettos, on Indian reservations, and in previously middle-class homes. Her book is their story told in their own words. But it is also the story of federal corruption and abuse. The government of the United States turns countless numbers of eligible people away from existing food programs; it allows millions of infants to be malnourished and it seems to be oblivious to citizens who are starving and dying. *Starving in the Shadow of Plenty* is the first in a series on hunger in America. The author's newest book, *Growing Up Empty*, the voices and politics of starving children in America, a 25-year retrospective, will be published by Harper Collins/Cliff Street Books in 2002.

Breadline USA Sasha Abramsky, 2020-07-24 Twenty-five million Americans, nearly 9 percent of the U.S. population, rely on food pantries. Another 13 million aren't linked to a food distribution network, and 14 million children are at risk of going hungry on any given day. Moreover, the faltering economy is increasing the number of American families that don't know where their next meals are coming from. *Breadline USA* treats this crisis not only as a matter of failed policies but also as a portrait of real human suffering. Investigative reporter Sasha Abramsky focuses attention on the people behind the statistics: the families caught up in circumstances beyond their control. *Breadline USA* is a vivid reminder of the fate to which many more Americans may be subject without urgent action.

Growing Up Empty Loretta Schwartz-Nobel, 2003-12-02 *Growing Up Empty* is a study of the hidden hunger epidemic that still remains largely unacknowledged at the highest political levels and an unforgettable exploration of public policy, its failures, and its victims. William Raspberry, *Washington Post*. Twenty years after Ronald Reagan declared that hunger was no longer an American problem, Schwartz-Nobel shows that hunger has reached epic proportions, running rampant through urban, rural, and suburban communities, affecting blacks, whites, Asians, Christians, and Jews, and nonbelievers alike. Among the people we come to know are the new homeless, born of the Welfare-to-Work program; these

working poor have jobs but do not make enough to support their families such as the formerly middle class housewife reduced to stealing in order to feed her children or the soldier fighting on our front lines while his young wife stands in bread lines and is denied benefits and baby formula at a military health clinic With skillful investigative reporting and a novelist's humanitarian eye for detail Schwartz Nobel portrays a haunting reality of human suffering that need not exist A call to action Growing Up Empty is advocacy journalism at its best
