

Teaching children healthy sexuality: Overview

[Teaching children healthy sexuality: Overview - Focus on the Family](#)

Gone are the days when parents can talk superficially about "the birds and bees" and expect their children to turn out OK. Our hyper-sexualized culture now reaches into more than 60 per cent of American homes via the Internet¹ and two-thirds of homes through cable TV.² Whether our children are urban or rural, rich or poor, they need intentional parents who model a continuum of healthy behaviours. Behind the sexual choices made by older children and adolescents is the deeper issue of personal character learned at home.

Take, for example, the character modelled by a dad who demonstrates road rage or a mom who tells a "white lie" on the telephone. You might wonder how these examples apply to the development of healthy sexuality in our children. Both examples demonstrate poor judgment and a lack of discipline, two qualities needed in abundance these days if one hopes to navigate the perilous waters of adolescence and sexual temptation.

We need a comprehensive theology of sexuality, chock full of practical applications lived out at home. As adults, many of us have learned in hindsight that poor character is intricately linked to sexual sin. And now as parents, we can appreciate that it's easier to shape character sooner than later in the lives of our children.

The role of family

While each child emerges with a separate and distinct will, we cannot underestimate the profound role of the family. For example, family is where young males can be mentored into responsible men who know how to safeguard sexuality and young females can be fashioned to cherish fidelity.

As a therapist I am routinely saddened by the fact that the vast majority of my clients who struggle with sex addiction, or those who are married to ones who do, were not mentored in any meaningful way at home. Without any intent to blame or shame, it seems to me that many parents throughout the years have simply "raised children" rather than intentionally going about the task of raising adults.

The research on neurological imprinting and how we learn experientially as children is a fascinating study. I believe God wired us to learn by way of imprints. One poet said, "Children live what they learn." Clearly human beings are likely to live what has been modelled to them during the first 18 or 20 years of life at home. Or, they may be prone to living reactively, unknowingly seeking the other extreme opposite of what they experienced. In either case, for better or for worse, what is modelled before children has a serious impact on their lives.

Unless we regard our children's vulnerabilities as a sacred trust, and strategically and prayerfully shelter them from harm, how can we expect them to flourish as adults?

Fred often played and wrestled with his young children. And of course, his kids loved it. But as his wife watched these matches of tickling and horseplay, she began to question the appropriateness of her husband's behaviours. At some point in the play, Fred's pants would invariably fall down as if the kids had somehow tickled him into losing his pants.

Some people would find no harm in the example I've provided, but in the book of Genesis, one of Noah's sons is cursed for mocking his father's nakedness.³ I can't recall a single account in Scripture where unnecessary immodesty is deemed healthy or appropriate.

Consider another challenge that threatens our children's sexuality. Many children grow up seeing one or both parents in dating relationships. Perhaps there was an unintended divorce or maybe it was the case of a young, single parent who, having made a mistake, wanted to raise her child. While such behaviour is more and more

UNDERSTANDING HUMAN SEXUALITY ESPHAN NG'ANG'A, 2009-07-31 Though sexuality is an important subject matter that should be taught in homes and in the church it has been neglected and treated as inconsequential Young and old alike look at sex as a taboo The church and the home should be the most appropriate forums where sexuality could be openly discussed but to the contrary the message we have received from the church and the home is that sex is unholy and shouldn t be discussed These key institutions have little or nothing to discuss about sex This is especially tragic because the believers who have faith in God who created sex and established its proper parameters should be able to speak more intelligibly and confidently about sex than anyone else Yet the community of believers is silent in the public forum in matters relating to sexuality whether because of embarrassment confusion timidity or a sense that the subject of sex is either too personal or not sufficiently spiritual for church to address publicly Mr Ng ang a has addressed this subject openly and with ardent scriptural instruction Understanding Human Sexuality is helpful to married couples and curious young people who have many questions about sex It is also an instruction manual for parents in guiding their curious children on the subject **Teaching Children**
