

Teaching For Effective Learning In Higher Education

N. Hativa

Teaching For Effective Learning In Higher Education:

Teaching for Effective Learning in Higher Education N. Hativa, 2000 This book identifies strategies that are consistently associated with good teaching and presents them within a theoretical framework that explains how they promote students active and meaningful learning The book promotes teachers pedagogical knowledge and their perception of teaching as scholarly intellectual work and provides extensive practical advice

Teaching for Effective Learning in Higher Education N. Hativa, 2012-12-06 Research on teaching in higher education shows that students who are well taught learn more than students who are poorly taught and there are some teaching behaviors and strategies that are consistently associated with good teaching This book identifies these strategies and presents them within a theoretical framework that explains how they promote students active and meaningful learning By presenting teaching as a logical structure of interconnected behaviors whose contribution to student learning is based on theory and research the book promotes teachers pedagogical knowledge and their perception of teaching as scholarly intellectual work The book provides extensive practical advice that is based on the vast experience of the author as an instructional consultant and on research on accomplished teachers taken from the domains of education psychology and speech communication The practical ideas are separated from the theoretical part in a way that makes them easily identifiable The book also puts forth the voice of the students through authentic comments that they wrote in thousands of instructor evaluation forms that the author collected over many years

A Handbook for Teaching and Learning in Higher Education Stephanie Marshall, Heather Fry, Steve Ketteridge, 2014-08-21 This entirely new edition of a very successful book focuses on developing professional academic skills for supporting and supervising student learning and effective teaching It is built on the premise that the roles of those who teach in higher education are complex and multi faceted A Handbook for Teaching and Learning in Higher Education is sensitive to the competing demands of teaching research scholarship and academic management The new edition reflects and responds to the rapidly changing context of higher education and to current understanding of how to best support student learning Drawing together a large number of expert authors it continues to feature extensive use of case studies that show how successful teachers have implemented these ideas It includes key topics such as student engagement and motivation internationalisation employability inclusive strategies for teaching effective use of technology and issues relating to postgraduate students and student retention Part 1 explores a number of aspects of the context of UK higher education that affect the education of students looking at the drivers of institutional behaviours and how to achieve success as a university teacher Part 2 examines learning teaching and supervising in higher education and includes chapters on working with diversity encouraging independent learning and learning gain Part 3 considers approaches to teaching and learning in different disciplines covering a full range including arts and humanities social sciences experimental sciences through to medicine and dentistry Written to support the excellence in teaching and learning design required to bring about

student learning of the highest quality this will be essential reading for all new lecturers particularly anyone taking an accredited course in teaching and learning in higher education as well as those experienced lecturers who wish to improve their teaching practice Those working in adult learning and educational development will also find the book to be a particularly useful resource In addition it will appeal to staff who support learning and teaching in various other roles

Effective Learning and Teaching in Business and Management Bruce Macfarlane, Roger Ottewill, 2013-10-11 Written to meet the needs of teachers lecturers and tutors working at different levels and in many situations this is the guide to surveying and understanding the key issues best practices and new developments in business and management studies Teaching in this field is a multi faceted experience The authors use an international perspective and support a wide range of situations by concentrating on five key areas the teaching and supporting of learning the design and planning of learning activities assessment and giving feedback to students developing effective learning environments and student learning support systems reflective practice and professional development Practical and clear this book will prove an invaluable guide for all those with an interest in developing business and management education and is essential reading for all those looking for professional accreditation for recognition of their teaching It is also indispensable for the less experienced teacher seeking material for reflection and advice

Teaching strategies in higher education Reuben Fowkes, 2000 **Effective Learning and Teaching in Computing** Sylvia Alexander, Alastair Irons, 2004-06-24 Written to meet the needs of teachers lecturers and tutors this is a comprehensive guide to understanding the key issues best practices and new developments in learning and teaching in information and computer sciences in higher education It covers a range of issues relating to teaching within the broad discipline of computing at under and post graduate level including curriculum assessment links with industry international perspectives innovative techniques for teaching effective use of ICT in teaching *Effective Learning and Teaching in Computing* will be essential reading for less experienced teachers seeking authoritative guidance as well as experienced teachers seeking material for reflection and advice

Learning to Teach in Higher Education Paul Ramsden, 1992 This bestselling book is a unique introduction to the practice of university teaching and its underlying theory This new edition has been fully revised and updated in view of the extensive changes which have taken place in higher education over the last decade and includes new material on the higher education context evaluation and staff development The first part of the book provides an outline of the experience of teaching and learning from the student s point of view out of which grows a set of principles for effective teaching in higher education Part two shows how these ideas can enhance educational standards looking in particular at four key areas facing every teacher in higher education Organising the content of undergraduate courses Selecting teaching methods Assessing student learning Evaluating the effectiveness of teaching Case studies of exemplary teaching are used throughout to connect ideas to practice and to illustrate how to ensure better student learning The final part of the book looks in more detail at appraisal performance indicators accountability and

educational development and training The book is essential reading for new and experienced lecturers particularly those following formal programmes in university teaching such as courses leading to ILT accreditation **A Handbook for Teaching and Learning in Higher Education** Heather Fry, Steve Ketteridge, Stephanie Marshall, 2008-12-19 First published in 2008 Routledge is an imprint of Taylor Francis an informa company **Effective Learning and Teaching in Higher Education** Mike O'Neil, 1995 *Handbook for Teaching and Learning in Higher Education* Heather Fry, Steve Ketteridge, Stephanie Marshall, 2003 While white racism has global dimensions it has an unshakeable lease on life in South African political organizations and its educational system Donnarae MacCann and Yulisa Maddy here provide a thorough and provocative analysis of South African children's literature during the key decade around Nelson Mandela's release from prison Their research demonstrates that the literature of this period was derived from the same milieu intellectual educational religious political and economic that brought white supremacy to South Africa during colonial times This volume is a signal contribution to the study of children's literature and its relation to racism and social conditions
