Teaching Reading to Slow and Disabled Learners Samuel Alexander Kirk, Joanne Marie Kliebhan, Janet W. Lerner, 1988-01-01 **Teaching Reading to Slow and Disabled Learners** Samuel Alexander Kirk, Joanne Marie Kliebhan, Janet W. Lerner, 1978 Approche des caractéristiques et problèmes des enfants ayant des difficultés d'apprentissage Controverses sur la manière de préparer ces enfants à l'apprentissage de la lecture Description des méthodes pédagogiques utilisées Etat de la recherche dans ce domaine WJ IV Clinical Use and Interpretation Dawn P. Flanagan, Vincent C. Alfonso, 2016-01-28 WJ IV Clinical Use and Interpretation Scientist Practitioner Perspectives provides clinical use and interpretive information for clinical practitioners using the Woodcock Johnson Fourth Edition WJ IV The book discusses how the cognitive achievement and oral language batteries are organized a description of their specific content a brief review of their psychometric properties and best practices in interpreting scores on the WJ IV Coverage includes the predictive validity of its lower order factors and the clinical information that can be derived from its 60 individual subtests Part II of this book describes the clinical and diagnostic utility of the WJ IV with young children for diagnosing learning disabilities in both school age and adult populations and for identifying gifted and talented individuals Additionally the book discusses the use of the WJ IV with individuals whose culture and language backgrounds differ from those who are native English speakers and who were born and raised in mainstream US culture Discusses the organization and content of all three batteries in the WJ IV Reviews best practices for score interpretation Covers psychometric properties and predictive validity Explores clinical information that can be extracted from 60 individual subtests Includes diagnostic utility for learning disabilities giftedness and non English speaking populations *Teaching Reading and Study Skills in Content Areas* Dorothy Rubin, 1983

Improving Reading in the Junior High School Arno Joseph Jewett, 1957 **Strategies for Teaching Learners with Special Needs** Edward A. Polloway, James R. Patton, 1997 The goal of this book is to present proven approaches to both curriculum development and general teaching methods which when used in tandem will foster educational success in students with special needs Although retaining many principles practices and instructional strategies that have been field tested and proven successful through five previous editions the Sixth Edition has been significantly revised to reflect many contemporary themes in education WJ III Clinical Use and Interpretation Fredrick A. Schrank, Dawn P. Flanagan, 2003-08-05 WJ III Clinical Use and Interpretation presents a wide variety of clinical applications of the WJ III from leading experts Each chapter will provide the reader with insights into patterns of cluster and test scores from both the WJ III Tests of Cognitive Abilities and WJ III Tests of Achievement that can assist with interpretation and formulation of diagnostic hypotheses for clinical practice WJ III Clinical Use and Interpretation provides expert guidance for using the WJ III with individuals with a broad array of learning and neuropsychological problems including learning disabilities and Attention Deficit Hyperactivity Disorder New research included in this volume emphasizes the value of the WJ III for identification of

gifted children and adolescents and young children with developmental delays Written by the leading experts on the WJ III Coverage of both the Tests of Cognitive Abilities and Tests of Achievement Provides expert guidance on using the WJ III with a variety of clinical populations Includes new research and illustrative case studies Goes beyond interpretive material published in the Examiner s Manuals and other resource books *Handbook of Reading Disability Research* Anne McGill-Franzen, Richard Allington, 2010-09-17 Bringing together a wide range of research on reading disabilities this comprehensive Handbook extends current discussion and thinking beyond a narrowly defined psychometric perspective Emphasizing that learning to read proficiently is a long term developmental process involving many interventions of various kinds all keyed to individual developmental needs it addresses traditional questions What is the nature or causes of reading disabilities How are reading disabilities assessed How should reading disabilities be remediated To what extent is remediation possible but from multiple or alternative perspectives Taking incursions into the broader research literature represented by linguistic and anthropological paradigms as well as psychological and educational research the volume is on the front line in exploring the relation of reading disability to learning and language to poverty and prejudice and to instruction and schooling The editors and authors are distinguished scholars with extensive research experience and publication records and numerous honors and awards from professional organizations representing the range of disciplines in the field of reading disabilities Throughout their contributions are contextualized within the framework of educators struggling to develop concrete instructional practices that meet the learning needs of the lowest achieving readers

Teaching the Learning Disabled Deborah Deutsch Smith, 1981 Off Track Louise Spear-swerling, 2018-03-05 The identification of poor readers as learning disabled can be the first of many steps toward consigning students to a lifetime of reading failure The very label that is meant to help children often becomes a burden that works against effective learning throughout their schooling In this book the authors identify the dangers of labeling children as reading or learning disabled contending that a reading disability is not a unitary phenomenon In order to diagnose and help children educators and parents need to understand the multiple sources of reading difficulty before they can choose appropriate means to correct it Drawing on recent research in cognitive psychology the authors present a new theoretical model of reading disability that integrates a wide variety of findings across age and grade spans Laid out in terms that are readily comprehensible to parents and practitioners the model outlines the phases that are characteristic of the path to proficient reading then describes four ways in which disabled readers may stray from this path The key to the authors work lies in the fact that youngsters who stray from the path of typical reading acquisition often are not distinguishable from other children who are classified as poor readers rather than as learning disabled This model is an especially useful one for practitioners because it both provides a broader view of reading disability than have many previous models and shows how reading disability relates to typical reading acquisition Using illustrative case studies the authors describe the four patterns of reading disability explain how to

properly assess them and suggest ways to conquer them
