Teaching and Learning Algebraic Thinking with 5- to 12-Year-Olds

Carolyn Kieran, 2017-12-04 This book highlights new developments in the teaching and learning of algebraic thinking with 5 to 12 year olds Based on empirical findings gathered in several countries on five continents it provides a wealth of best practices for teaching early algebra Building on the work of the ICME 13 International Congress on Mathematical Education Topic Study Group 10 on Early Algebra well known authors such as Luis Radford John Mason Maria Blanton Deborah Schifter and Max Stephens as well as younger scholars from Asia Europe South Africa the Americas Australia and New Zealand present novel theoretical perspectives and their latest findings The book is divided into three parts that focus on i epistemological mathematical aspects of algebraic thinking ii learning and iii teaching and teacher development Some of the main threads running through the book are the various ways in which structures can express themselves in children s developing algebraic thinking the roles of generalization and natural language and the emergence of symbolism Presenting vital new data from international contexts the book provides additional support for the position that essential ways of thinking algebraically need to be intentionally fostered in instruction from the earliest grades

Teaching and Learning Algebra Doug French, 2002-12-31 Algebra is widely recognized as a difficult aspect of the Mathematics curriculum one that not all pupils see the point of Yet an understanding of algebra provides the key to the great power and potential interest of Mathematics in general Up to now detailed advice and guidance on the teaching and learning of algebra has been difficult to find Here however Doug French provides a comprehensive authoritative and above all constructive guide to the subject

Teaching and Learning Algebra Heidi Strømskag Måsøval, Yves Chevallard, 2016-05-04 The book is based on a longitudinal study of beginning teachers struggles with algebra with strong foundation in the theory of didactical situations Brousseau 1997 The focus is on factors that constrain students engagement with algebraic generality in shape patterns Participants in the study are six student teachers and two teacher educators of mathematics The empirical material consists

of videotaped classroom observations and the mathematical tasks with which the students engaged Three analytic categories emerged from an open coding process which show that the students algebraic generalization is constrained by 1 a limited feedback potential in situations where the students are supposed to solve the mathematical tasks without teacher intervention 2 obstacles the students face when they shall transform into algebraic notation formulae they have expressed informally in natural language and 3 challenges with justification of formulae and mathematical statements that the students have proposed This book provides many practical and concrete examples to guide mathematics education researchers mathematics teacher educators and mathematics educators in teaching algebra in a variety of contexts and environments

Tasks and Competencies in the Teaching and Learning of Algebra Alex Friedlander, Abraham Arcavi, 2018-02-28 Tasks and Competencies in the Teaching and Learning of Algebra provides a conceptual approach that will encourage students learning algebra to employ a variety of thinking processes and strategies and most importantly will enable them to truly understand the concepts that underlie the problems they are solving The authors framework develops those skills and competencies aligned with the goals of the Common Core State Standards that are necessary for an integrated conceptual learning of algebra The book s four chapters include tasks focusing on algebraic expressions equations and functions followed by tasks that integrate several mathematical concepts Each of the 48 tasks in this book contains a classroom ready task with items arranged by increasing order of complexity a discussion of the task s main ideas and objectives solutions for each item in the task with suggestions of various methods that students might use and a listing of the essential competencies that students can develop by working on the task All 48 tasks are also available at NCTM s More4U website as downloadable and printable worksheets to hand out to students With its strong conceptual framework Tasks and Competencies in the Teaching and Learning of Algebra is designed to enable teachers teacher educators and curriculum designers to help students at all levels master the ideas and practices found in algebra and to develop skills they can use throughout their mathematics education

The Future of the Teaching and Learning of Algebra Kaye Stacey, Helen Chick, Margaret Kendal, 2004-08-19 This book presents a wide ranging international perspective on the state of the field of algebra from invited participants to the 12th ICMI Study Conference held in Melbourne Australia in 2001 The authors are renowned academics from all around the world who have written individual chapters associated with the teaching and learning of algebra that relate to their particular areas of research and teaching expertise The book includes information about different approaches to the teaching and learning of algebra from early algebra to tertiary algebra the impact of tools and technology including Computer Algebra Systems the role of symbols and language teachers of algebra and the history of algebra The Future of the Teaching and Learning of Algebra the 12th ICMI Study is of interest to researchers curriculum developers educational policy makers teachers of mathematics and trainee mathematics teachers
