

Primary teaching personal statement

I am a responsible, hard-working and friendly girl who is known for my strong passion to attain a career as a primary school teacher. I firmly believe that in order to become a great teacher, the desire to help and assist children should be there. The learning process can be tough and challenging, which is one of the reasons that I really love about this profession.

My interest in primary teaching started when I was volunteering at a summer play program sponsored by a local charity focusing on helping children between the ages 1 and 8. I found it particularly rewarding to finally see the satisfying look on a kid's face as they finish their artwork, or join a group activity. The feeling that I was able to help provide the children trust and confidence in themselves is just so great.

Closely working with children and parents has greatly improved my overall confidence. By the end of the program, I just found myself humming to the songs being played all throughout the day with much enthusiasm and passion. I had the opportunity to shadow a teacher at our local primary school. I was able to assist the children in reading, helping them with words that they think are difficult. I also participated in math lesson tutorials where children worked with their lessons. I just loved having the responsibility of supervising children as they learn and interact with different types of children.

It would certainly give me pleasurable to become part of the growth of the lives of children. I understand the fact that teaching is both tiring and taxing, but I am very much willing to reach my goal in order to become a head teacher. If I can achieve my goal, I believe that I would completely attain the confidence that I want to have some more.
