individuals and organizations were that led the movements in this period and what motivated them to get involved and what strategies were pursued how they were chosen and how successful they were He argues that while Chicana o activists continued to challenge school segregation in the 1960s as earlier generations had they broadened their efforts to address new concerns such as school funding testing English only curricula the exclusion of undocumented immigrants and school closings They also advocated cultural pride and memory inclusion of the Mexican American community in school governance and opportunities to seek educational excellence in private religious nationalist and secular schools The profusion of strategies has not erased patterns of de facto segregation and unequal academic achievement San Miguel concludes but it has played a key role in expanding educational opportunities The actions he describes have expanded extended and diversified the historic struggle for Mexican American education
