masterworks of classical Haida sculpture now enshrined in many of the world's great museums range from exquisite tiny amulets to magnificent huge housepoles. Classical Haida literature is every bit as various and fine. It extends from tiny jewels crafted by master songmakers to elaborate mythic cycles lasting many hours. The linguist and ethnographer John Swanton took dictation from the last great Haida speaking storytellers, poets and historians from the fall of 1900 through the summer of 1901. His Haida hosts and colleagues had been raised in a wholly oral world where the mythic and the personal interpenetrate completely. They joined forces with their visitor consciously creating a great treasury of Haida oral literature in written form. Poet and linguist Robert Bringhurst has worked for many years with these century old manuscripts which have waited until now for the broad recognition they deserve.

Nine Visits to the Mythworld Ghandl of the Qayahllaanas, 2023-10-28 In the Fall of 1900 a young American anthropologist named John Swanton arrived in the Haida country on the Northwest Coast of North America intending to learn everything he could about Haida mythology. He spent the next ten months phonetically transcribing several thousand pages of myths, stories, histories and songs in the Haida language. Swanton met a number of fine mythtellers during his year in the Haida country. Each had his own style and his own repertoire. Two of them, a blind man in his fifties by the name of Ghandl and a crippled septuagenarian named Skaay, were artists of extraordinary stature, revered in their own communities and admired ever since by the few specialists aware of their great legacy. *Nine Visits to the Mythworld* includes all the finest works of one of these master mythtellers. In November 1900 when Ghandl dictated these nine stories, the Haida world lay in ruins. Wave upon wave of smallpox and other diseases, rapacious commercial exploitation by fur traders, whalers and miners, and relentless missionization by the church had taken a huge toll on Haida culture. Yet in the blind poet's mind, the great tradition lived, and in his voice, it comes alive. Robert Bringhurst's eloquent and vivid translations of these works are supplemented by explanatory notes that supply the needed background information.

Haida Eagle Treasures Pansy Collison, 2017-10-16 Take a journey into the heart of Haida culture as it is lived and experienced by an extraordinary woman of the Tsath Lanas Eagle Clan. Pansy Collison, a Haida woman born and raised in Old Massett on Haida Gwaii, tells stories of her clan and community as well as personal narratives about her history and family. *Haida Eagle Treasures* embodies a strong Haida woman's voice, offering a rare glimpse inside Haida culture. Each story and memory is a treasure that captures part of the beauty of the Haida worldview and way of life. Now retired, Pansy taught for 23 years at elementary, secondary and college levels. From these experiences, she describes some of the challenges and contradictions of living between two worlds. Pansy's teaching skills, artistic talents and political affiliations keep her involved in politics and education on Haida Gwaii. Thirteen original illustrations by Pansy's brother, Paul White, a gifted artist, teacher, pole carver and designer, provide the guideposts within *Haida Eagle Treasures*.

Being in Being Skaay of the Qquuna Qiighawaay, 2023-10-28 *Being in Being* contains three masterpieces by legendary Haida mythteller Skaay of the Qquuna Qiighawaay. The shortest recounts the high points of the legend of his family. The longest, *Raven Travelling*, is the

most complex version of the story of the Raven ever recorded on the Northwest Coast The third is The Qquuna Cycle the largest and most complex literary work in any Native Canadian language It is a poem of epic length and one of the true masterpieces of North American literature **Haida Syntax** John Enrico,2003-01-01 The Haida people make their home on the Queen Charlotte Islands in British Columbia and on Prince of Wales Island off the coast of southern Alaska Their language distinct from their Northwest Coast neighbors is spoken today by a few elders and is in danger of becoming extinct despite efforts by the community to save it Intimately familiar with the Haida language John Enrico bases this comprehensive description of the syntax of two Haida dialects on his twenty five years of fieldwork in the Haida community and on the materials collected by the anthropologist John Swanton in the early twentieth century This synthesis of the syntax of the Haida language provides an exemplary reference work of the language for the Haida community and for scholars *Islands' Spirit Rising* Louise Takeda,2014-12-10 The islands of Haida Gwaii contain some of the last remaining tracts of intact coastal temperate rainforest in the world Aggressive logging over the past century however has threatened not only the unique biodiversity and habitat values but also the cultural values of the Haida people who have relied on these forests for millennia *Islands Spirit Rising* examines the long term conflict over the islands ancient forests and recent events that unfolded in the context of collaborative land use planning In response to threats posed by a century of logging a local indigenous environmental community movement built enough momentum to challenge the multinational forest industry and the political structures enabling it This book traces the evolution of this dynamic force from the early days of Haida resistance to the modern context of alliances legal battles and evolving forms of governance **Claiming Back Their Heritage** Geneviève Susemihl,2023-10-04 This book provides a unique in depth look at three Indigenous World Heritage sites in Canada and their use for Indigenous empowerment and community development Based on extensive ethnographic field studies and comprehensive narrative interviews it shows how the three First Nation communities presented in the case studies enforce recognition of their collective rights to preserve their cultural heritage and assert their right to political economic cultural and social self determination It also considers the prevailing universalistic discourses around World Heritage and the various ways in which they serve to either reinforce existing oppressive conditions regarding Indigenous communities and voices or provide opportunities to overcome them The book will be of interest to scholars and students working on social and cultural histories histories of colonialism and in heritage and museum studies *Shadow House* Jonathan Meuli,2013-12-19 In this fascinating study of Northwest Coast art Jonathan Meuli has not only outlined a history of ideas associated with Northwest Coast art objects from pre Contact time to the present day but has also examined the ways in which the physical location and contexts in which the objects are produced has helped to determine their meanings Locating his linear historical narrative within a wider exploration of ethnographic art ideas which emphasizes links across cultures Meuli examines the differing attitudes towards Northwest Coast material culture particularly as these are embodied in oral mythic narratives collection
