Skilful Means A Concept In Mahayana Buddhism:

Skilful Means Michael Pye, 2003-01-01 A journey through inhospitable landscapes proves to be challenging in the extreme While employed by the Cameroons Development Corporation CDC the author who finds herself drawn to hot arid and sandy places cherishes a seemingly impossible ambition to return to Europe via the Sahara when her contract ends As the fates would have it a Dutch journalist materializes one day in this small close knit Cameroons community Named Pete he has just traversed the Sahara in a southerly direction alone with a motor cycle with sidecar Serious planning began and an apparently suitable pick up truck became available in Douala *Paul Tillich and Asian Religions* Ka-fu Keith Chan, Yau-nang William Ng, 2017-08-21 This volume investigates Paul Tillich's relationship to Asian religions and locates Tillich in a global religious context It appreciates Tillich's heritage within the western and eastern religious contexts and explores the possibility of global religious cultural understanding through the dialogue of Tillich's thought and East West religious cultural matrix *Transforming Buddhism* Andre Van Der Braak, Paul Van Der Velde, Tristan Letzer, 2021-11-30 The world of Buddhism has always been a dynamic one There are endless developments and interactions as the dharma spread throughout Asia In more recent times Buddhism has even made a more global appeal dharma centers are everywhere nowadays Transforming Buddhism presents a number of case studies of a group of scholars who each of them focus on the ways how Buddhism transforms and is transformed both in the past and in modernity The book presents results of research performed in Asia for instance on women in the Buddhist monastic tradition of Thailand foreigners living in the harsh conditions of specific Thai Theravada monasteries and child monks in Tibet Other subjects are developments within Japanese Zen Buddhism in interaction with modern western philosophy and the Japanese Buddhism incited by K b Daishi 774 835 Next there is the inspiration for modernity that can be found in the works of the Korean monk Chinul 1158 1210 and themes in Buddhist life histories legendary historical and personal As such Transforming Buddhism gives a broad view on a number of transformations of the Buddhist dharma from various perspectives *Augustine and World Religions* Brian Brown, John A. Doody, Kim Paffenroth, 2008-05-30 Augustine and World Religions examines Augustine's thought for how it can inform modern inter religious dialogue Despite Augustine's reputation as the father of Christian intolerance one finds in his thought the surprising claim that within non Christian writings there are some truths in regard even to the worship of the One God This it seems hints at a deeper level of respect and dialogue between religions because one engages in such dialogue in order to better understand and worship God The essays here uncover provocative points of comparison and similarity between Christianity and other religions to further such an Augustinian dialogue **Religion and Biography in China and Tibet** Benjamin Penny, 2013-09-05 The Chinese and Tibetan traditions value biography as a primary historiographical and literary genre This volume analyses biographies as texts taking seriously the literary turn in historical and religious studies and applying some of its insights to an understudied but central corpus of material in Chinese and Tibetan religion **Buddhist**

Practice and Visual Culture Julie Gifford, 2011-03-16 Providing an overall interpretation of the Buddhist monument Borobudur in Indonesia this book looks at Mahayana Buddhist religious ideas and practices that could have informed Borobudur including both the narrative reliefs and the Buddha images The author explores a version of the classical Mahayana that foregrounds the importance of the visual in relation to Buddhist philosophy meditation devotion and ritual The book goes on to show that the architects of Borobudur designed a visual world in which the Buddha appeared in a variety of forms and could be interpreted in three ways by realizing the true nature of his teaching through visionary experience and by encountering his numinous presence in images Furthermore the book analyses a particularly comprehensive and programmatic expression of Mahayana Buddhist visual culture so as to enrich the theoretical discussion of the monument It argues that the relief panels of Borobudur do not passively illustrate but rather creatively picture selected passages from texts Presenting new material the book contributes immensely to a new and better understanding of the significance of the Borobudur for the field of Buddhist and Religious Studies
