Austin Nuttall,1890    **British Nautical Melodramas, 1820-1850** Arnold Schmidt,2022-07-30 During the 1820s and 30s nautical melodramas reigned supreme on London stages entertaining the mariners and maritime workers who comprised a large part of the audience for small theatres These plays mixed sentimental moments and comic interludes of domestic melodrama with patriotic images that communicated and reinforced imperial themes However generally the study of British theatre history moves from medieval and renaissance plays directly to the realism and naturalism of late Victorian and modern drama Readers typically encounter a gap between Restoration and eighteenth century plays like those of Oliver Goldsmith and Richard Brinsley

Sheridan and late nineteenth plays by Henrik Ibsen and Oscar Wilde Nineteenth century drama with the possible exception of plays by Byron Shelley and Wordsworth remains all but invisible Until recently melodramatic plays written and performed during this gap received little scholarly attention but their value as reflections of Britain's promulgation of imperial ideology and its role in constructing and maintaining class gender and racial identities have given discussions of melodrama force and momentum The plays included in these three volumes have never appeared in a critical anthology and most have not been republished since their original nineteenth century editions Each play is transcribed from original documents and includes an author biography a headnote about the play itself full annotations with brief definitions of unfamiliar vocabulary and explanatory notes Comprehensive editorial apparatus details the nineteenth century imperial naval political and social history relevant to the plays nautical themes as well as discussing nineteenth century theatre history melodrama generally and the nautical melodrama in particular Contemporary theatre practices acting audiences staging lighting special effects are also examined An extensive bibliography of primary and secondary texts a complete index and contemporary images of the actors theatres stage sets playbills costumes and locales have been compiled to aid study further

Matthew J Babcock's Private Fire Robert Francis's Ecopoetry and Prose is an examination of the life and work of one of America's most intriguing but tragically obscure writers Babcock uses his own personal relationship Robert Francis's work which emphasizes conservation and connectedness to our natural surroundings to illuminate both overtones and nuances that are undoubtedly useful to those interested in poetry and ecology Babcock begins with a brief biographical section intended to set the tone for readers previously unfamiliar with Robert Francis and then continues into an analysis of the influence of Emily Dickinson and Robert Frost on Francis's work Starting in Chapter Three Private Fire shifts into the realm of literary analysis and discusses various angles of Francis's work from representations of gender and sexual identity prose contributions both fiction and non-fiction religion and politics to themes of conservation place making experimental poetic styles and asceticism finishing with a discussion of Francis's only long narrative poem Valhalla This poem joins other prophetic works in musing upon environmental apocalypticism Matthew J Babcock finishes this detailed and thoughtful volume with concluding meditations that situate Robert Francis with his contemporaries helping readers to locate him historically and contextually amongst other 20th century writers By using biography and literary theory as the lens through which one interprets Francis's work Private Fire Robert Francis's Ecopoetry and Prose successfully navigates the literary and cultural environment surrounding a poet who himself was so connected with the world around him
