Standing Up For The People The Life And Work Of Estes Kefauver:

Standing Up for the People Harvey Swados, 1972 A biography of the Tennessee Senator of populist persuasion who championed many unpopular causes during his term in office Senators of the United States Diane B. Boyle, 1995 S Doc 103 34 Compiled by Jo Anne McCormick Quatannens Diane B Boyle editorial assistant prepared under the direction of Kelly D Johnston Secretary of the Senate Lists scholarly works that profile the lives and legislative service of senators and their autobiographies and other published works **Presumed Criminal** Carl Suddler, 2020-09-01 A startling examination of the deliberate criminalization of black youths from the 1930s to today A stark disparity exists between black and white youth experiences in the justice system today Black youths are perceived to be older and less innocent than their white peers When it comes to incarceration race trumps class and even as black youths articulate their own experiences with carceral authorities many Americans remain surprised by the inequalities they continue to endure In this revealing book Carl Suddler brings to light a much longer history of the policies and strategies that tethered the lives of black youths to the justice system indefinitely The criminalization of black youth is inseparable from its racialized origins In the mid twentieth century the United States justice system began to focus on punishment rather than rehabilitation By the time the federal government began to address the issue of juvenile delinquency the juvenile justice system shifted its priorities from saving delinquent youth to purely controlling crime and black teens bore the brunt of the transition In New York City increased state surveillance of predominantly black communities compounded arrest rates during the post World War II period providing justification for tough on crime policies Questionable police practices like stop and frisk combined with media sensationalism cemented the belief that black youth were the primary cause for concern Even before the War on Crime the stakes were clear race would continue to be the crucial determinant in American notions of crime and delinquency and black youths condemned with a stigma of criminality would continue to confront the overwhelming power of the state **Antimonopoly and American Democracy** Daniel A. Crane, William J. Novak, 2023 Americans today worry about concentrated power in private industry to an extent not seen in generations Not only do they find diminished diversity of service providers and producers but they are disquieted by the power of a few large companies to shape and constrain democratic processes Americans across the political spectrum from former President Donald Trump to Massachusetts Senator Elizabeth Warren have sounded alarms about the overlarge power of business in both public and private life While many of the technologies and industries that worry Americans are new the concerns they've raised are not unprecedented Antimonopoly and American Democracy traces the history of antimonopoly politics in the United States arguing that organized action against concentrated economic power comprises an important American democratic tradition While prevailing narratives tend to treat monopoly as a risk to people mainly in their roles as consumers by causing prices to increase for example this study broadens the conversation recounting ways in which monopolism can hurt ordinary people without directly impacting their

wallets From the pre revolutionary era to the age of Big Tech the volume explores the effects that historical monopolies have had on democracy by using their wealth and influence to dominate electoral politics and regulation Chapters also highlight a range of sites of economic concentration from land ownership to media reach and attempts at combating them from labor organizing to constitutional revision Featuring original scholarship from some of the world s leading experts in American economic political and legal history Antimonopoly and American Democracy offers important lessons for our contemporary political moment in which fears of concentrated wealth and influence are again on the rise
