JACOB AAGAARD

EVERYMAN CHESS

Starting Out The Grunfeld Defence Starting Out Everyman Cheb

Nigel Davies

Starting Out The Grunfeld Defence Starting Out Everyman Cheb:

Starting Out Jacob Aagaard, 2004 The Grunfeld is an energetic and popular defense to queen's pawn openings and is a favorite of the world number one Garry Kasparov. From the start of the game Black allows White to build an apparently strong centre but then attacks it with all his forces. Play can become extremely sharp and theoretical and this opening very much appeals to dynamic players. In this book International Master Jacob Aagaard revisits the fundamental principles of the Grunfeld and its numerous variations. Throughout the book there are an abundance of notes, tips and warnings to guide the improving player while important strategies, ideas and tactics for both sides are clearly illustrated. User friendly design to help readers absorb ideas. Concentrates on the main ideas of the Grunfeld. Ideal for the improving player. **The Grunfeld Defence** Nigel Davies, 2002 Grandmaster Nigel Davies takes an in depth look at the Grunfeld Defence, one of Black's most fashionable openings and a choice of both Bobby Fischer and Garry Kasparov. Starting Out John Cox, 2006 **Starting Out - The Accelerated Dragon** Andrew Greet, 2008-03-08 Starting Out The Accelerated Dragon is a further addition to Everyman's best selling Starting Out series which has been acclaimed for its original approach to tackling chess openings. International Master Andrew Greet, an Accelerated Dragon expert, revisits the fundamentals of the opening, elaborating on the crucial early moves and ideas for both sides in a way that is often neglected in other texts. **A Complete Guide to Flank Openings** Neil McDonald, 2019-02-15 Two great books by Neil McDonald from the Everyman Chess Library Starting Out the Reti and Starting Out The English brought together in one volume. The Reti is a popular opening at all levels of chess. The great advantage it possesses over other openings is that it's a thematic system which can be adopted against many different defences and because of this it's a firm favourite amongst those who prefer the understanding of ideas over dry memorization of moves. In this book Grandmaster Neil McDonald examines the Reti by going back to basics, introducing the key moves and ideas and taking care to explain the reasoning behind them, something that has often been neglected or taken for granted in other works. The English is a sophisticated and popular opening system that is suitable for all types of players and can lead to both positional and tactical middlegames. Many of the world's top players including Kasparov and Kramnik include the English in their openings weaponry. In this groundbreaking book Grandmaster Neil McDonald revisits the basic principles behind the English and its many variations. Throughout this easy to read guide the reader is aided by a wealth of notes, tips and warnings from the author while key strategies, ideas and tactics for both sides are clearly illustrated. This book is ideal for the improving player. *Challenging the Grunfeld* Edward Dearing, 2005 This is a thorough guide to a very complex opening system for experienced chess players. Organised in the traditional complete style, this is more than just a repertoire for White against this topical system. Experienced players are attracted to the strategic complexity of 1 d4 openings but do not know how to deal with the dynamic Grunfeld Defence. Here an International Master suggests that the answer is the Modern Exchange Variation as favoured by Kramnik, Gelfand, Anand and other top grandmasters on numerous occasions. With in

depth coverage the book includes 50 main games readers can play through with conclusions at the end of every game and chapter This is essential reading for both defenders of this opening system as well as those who want to Challenge the Grünfeld *Grünfeld Defence* ,1985 *D91* ,1996 **Starting Out** Neil McDonald,John Cox,2017-04 In these two books brought together now for the first time in one volume John Cox and Neil McDonald provide the reader with strong and trusty repertoires with white pieces based on the popular opening moves of 1d4 and 1e4 **Grünfeld Defence Revealed** Michael Khodarkovsky,2003 Introducing a new series of innovative chess guides each one presents in detail the key ideas of an important chess opening in a fresh entertaining and accessible way The manuals reveal the current thinking of the world s elite players giving novices a glimpse of how the champions achieve success This first entry covers the Grünfeld Defense a favorite of the legendary Garry Kasparov His good friend and confidant International Master Michael Khodarkovsky lets us into the secrets of Kasparov s preparation explains the most important elements of the Grünfeld and provides an up do date survey of the critical lights A First Moves section goes through all the basic opening moves Heroes and What s Hot pinpoints the very latest ideas from the world s elite A detailed table summarizes the main variations with assessments *Starting Out* Neil McDonald,2006 In *Starting Out* with 1 e4 Grandmaster Neil McDonald provides the reader with a strong and trustworthy repertoire with the white pieces based on the opening move 1 e4 The recommended lines given here have stood the test of time and are regularly employed **Understanding the Grünfeld** Jonathan Rowson,1999 Written by a leading expert in the Grünfeld defence this is a thorough guide to an important chess opening with explanations of the main themes for both sides
