Teaching Diversity And Democracy:

Teaching Democracy Walter Parker, 2003 In *Teaching Democracy* Walter Parker makes a unique and thoughtful contribution to the hot debate between proponents of multicultural education and those who favor a cultural literacy approach Parker conclusively demonstrates that educating for democratic citizenship in a multicultural society includes a fundamental respect for diversity This scholarly yet accessible work Bridges the widening gap between multicultural education and civic education provides powerful teaching strategies that educators can use to draw children creatively and productively into a way of life that protects and nurtures cultural pluralism and racial equity explains the unity diversity confusion that is found in popular media as well as in multicultural and citizenship education initiatives defines deliberative discussion and explores its promise as the centerpiece of democratic education in schools both elementary and secondary

Teaching, Diversity and Democracy Barry Osborne, 2001 Considers the concept of diversity in students and provides models and frameworks for success examines subjectivities of teachers and teaching practices emphasises the democratic right of students to be taught well book based on author's personal experience as a teacher of Torres Strait Islander students

Building Democracy through Education on Diversity Suzanne Majhanovich, Régis MALET, 2015-12-01 This book weaves together voices of faculty residents mentors administrators community organizers and students who have lived together in a third space urban teacher residency program in Newark as they reinvent math and science teaching and teacher education through the lens of inquiry Each chapter includes narratives from multiple perspectives as well as tools we have used within the program to support and build change providing readers with both real cases of how an urban teacher residency can impact school systems and concrete tools and examples to help the reader understand and replicate aspects of the process Capturing both the successes but also the tensions and challenges we offer a kaleidoscopic view of the rich complex and multi layered ways in which multiple stakeholders work together to make enduring educational change in urban schools Our third space NMUTR has been a fragile utopian enterprise one that has relied on a shared commitment of all involved and a deep sense of hope that working collaboratively has the potential even if not perfect to make a difference

Diversity's Promise for Higher Education Daryl G. Smith, 2010-07-10 Daryl G Smith's career has been devoted to studying and fostering diversity in higher education. She has witnessed and encouraged the evolution of diversity from an issue addressed sporadically on college campuses to an imperative if institutions want to succeed. In *Diversity's Promise for Higher Education* she analyzes how diversity is practiced today and offers new recommendations for effecting lasting and meaningful change. Smith argues that in the next generation of work on diversity, student population mix and performance will no longer be acceptable indicators of an institution's diversity effectiveness. To become more relevant to society, the nation and the world while remaining true to their core mission, institutions must begin to see diversity like technology as central to teaching and research. She proposes a set of practices that will help colleges and universities embrace diversity as a tool for institutional success. This thoughtful volume draws on 40 years of diversity studies. It offers both researchers and administrators an innovative approach to developing and instituting effective and sustainable diversity strategies.

Encyclopedia of Diversity in Education James A. Banks, 2012-05-17 The diversity education literature both nationally and internationally is broad and diffuse. Consequently, there needs to be a systematic and logical way to organize and present the state of research for students and professionals. American citizens need to understand the dynamics of their increasingly diverse communities and institutions and the global world in which we live, work and lead. With continually evolving information on diversity policies, practices and programs, it is important to have one place where students, scholars, teachers and policymakers can examine and explore research, policy and practice issues and find answers to important questions about how diversity in U.S. education is enriched with theories, research and practices in other nations. Explained and communicated and how they affect institutional change at both the K-12 and postsecondary levels. With about 700 signed entries with cross references and recommended readings, the *Encyclopedia of Diversity in Education* 4 volumes in both print and electronic formats will present research and statistics, case studies and best practices, policies and programs at pre and postsecondary levels. Diversity is a worldwide phenomenon and while most of the entries in the *Encyclopedia* will focus on the United States, diversity issues and developments in nations around the world, including the United States, are intricately connected. Consequently, to illuminate the many aspects of diversity, this volume will contain entries from different nations in the world in order to illuminate the myriad aspects of diversity. From A to Z, this *Encyclopedia* will cover the full spectrum of diversity issues including race, class, gender, religion, language, exceptionality and the global dimensions of diversity as they relate to education. This four-volume reference work will be the definitive reference for diversity issues in education in the United States and the world.
