Teaching At Post 16:

Developing Effective 16-19 Teaching Skills John Butcher, 2004-11-25 This book aims to enhance the competence of trainee teachers in secondary schools and FE colleges as they confront 16-19 teaching for the first time **The Post-16 SENCO Handbook** Elizabeth Ramshaw, 2017-02-17 This accessible practical handbook provides essential guidance to SENCOs in sixth forms and colleges of further education on how to manage the support of students with additional needs and how to work with their colleagues, students, families and external professionals to co-ordinate effective provision. As a result of the revised Code of Practice 0-25 years 2015, it has been necessary for the FE sector to develop a new approach to the responsibility for and support of students with learning difficulties and disabilities. With up-to-date information on supporting and taking responsibility for learners with SEN and disabilities, this book offers practical advice and guidance on the expectations of Further Education colleges and an overview of the learning difficulties and disabilities that they may need to support, assessment methods and the importance of consistent ongoing vigilance and analysis, the roles, responsibilities and staff specialism involved in providing different support for different needs, requesting and reviewing Education, Health and Care Plans, working with families, carers, schools and other external professionals, planning for the onward transition of a learner's further education experience. It looks at their choices, the market behaviour of local education and training providers and those who help and advise these choices. The authors show that recent and current political policies for post-16 education disadvantage, marginalise and exclude young people rather than improve their life chances. The book draws together the major issues and attempts to suggest alternative ways forward for a more inclusive post-16 education and training system.
