Teaching Children With Behavior Disorders Personal Perspectives:

Teaching Children with Behavior Disorders: Personal Perspectives James M. Kauffman, Clayton D. Lewis, 1974-01-01

The Unteachables Keith A. Mayes, 2023-01-24 How special education used disability labels to marginalize Black students in public schools The Unteachables examines the overrepresentation of Black students in special education over the course of the twentieth century As African American children integrated predominantly white schools many were disproportionately labeled educable mentally retarded EMR learning disabled LD and emotionally behavioral disordered EBD Keith A Mayes charts the evolution of disability categories and how these labels kept Black learners segregated in American classrooms The civil rights and the educational disability rights movements Mayes shows have both collaborated and worked at cross purposes since the beginning of school desegregation Disability rights advocates built upon the opportunity provided by the civil rights movement to make claims about student invisibility at the level of intellectual and cognitive disabilities Although special education ostensibly included children from all racial groups educational disability rights advocates focused on the needs of white disabled students while school systems used disability discourses to malign and marginalize Black students From the 1940s to the present social science researchers policymakers school administrators and teachers have each contributed to the overrepresentation of Black students in special education Excavating the deep seated racism embedded in both the public school system and public policy The Unteachables explores the discriminatory labeling of Black students and how it indelibly contributed to special education disproportionality to student discipline and push out practices and to the school to prison pipeline effect

Issues in Educational Placement James M. Kauffman, Daniel P. Hallahan, Terry A. Astuto, John Wills Lloyd, 2019-08-07 Placement of students with disabilities in the least restrictive environment has become a central issue in special education To date no comprehensive treatment of placement issues is available especially for students with emotional and behavioral disorders who present particularly difficult placement problems This book combines data and discussions intended to further the understanding of how and why decisions are made to place students with emotional or behavioral disorders in particular educational environments This volume establishes the problem of placement in a contemporary and historical context reviews the literature on placement of students with emotional or behavioral disorders and discusses placement options and concerns about multicultural issues post secondary education law and regulation demands on teachers and policy choices Its goals are to improve understanding of decision processes leading to placement set the stage for improvements in pupils lives in school and elsewhere and stimulate research on the many placement issues that are left unresolved

Systematic Intervention with Disturbed Children Marvin J. Fine, 2012-12-06 Disturbed children constitute a sizeable and varied percentage of the child population Generally two to three percent have severe longstanding problems and 20 to 30 percent have current more transient problems While preventive efforts are needed it also seems obvious that many children will continue to function in a disturbed and disturbing

fashion and will continue to require various kinds of therapeutic interventions. These interventions will mainly occur in school and community settings. This book attempts to present a picture of some fairly popular models of intervention and to consider important related issues. There are probably as many ways of coping with disturbed children as there are creative caring persons attempting to do the coping. A growing literature exists on ways of conceptualizing and intervening with such children. It was believed by the editor that an organized body of information on these concepts and techniques would prove useful to student and practitioner. A danger with such collections is that if they mainly portray novel or atypical techniques while informative, the book quickly becomes passe and of limited value. This book's focus is on contemporary thought but also on orientations that have stood the test of some time and the stability of the underlying theory.

Educating Children and Adolescents with Behavioral Disorders Joseph V. Rizzo, Robert H. Zabel, 1988

Handbook of Research in Emotional and Behavioral Disorders Robert Bruce Rutherford, Mary M. Quinn, Sarup R. Mathur, 2007-01-10

Bringing together leading researchers, this book integrates current knowledge on emotional and behavioral disorders in the school setting. Reviewed are a range of evidence-based approaches to identifying, assessing, and intervening with this difficult-to-teach population. School practitioners and educators gain essential tools for developing and evaluating programs to improve student behavior, boost self-control and social skills, and maximize academic achievement. Findings on early intervention and prevention are presented and implications for policy discussed. Broad in coverage, the volume also emphasizes the importance of interdisciplinary collaboration in service provision and delineates best practice guidelines for research.

Special Education in Contemporary Society Richard M. Gargiulo, 2012

Special Education in Contemporary Society: An Introduction to Exceptionality is designed for use by preservice and inservice teachers who will teach students with special needs in the general classroom. The text provides a rare glimpse into the lives of persons with exceptionalities, including their families and teachers. Focusing on human exceptionalities across the life span, the text employs a traditional organization, beginning with four foundations chapters that introduce teachers to special education, followed by 10 categorical chapters, each on a different disability. Each categorical chapter features sections on transition, cultural diversity, technology, instructional strategies, and family considerations.

Special education past, present, and future Timothy J. Landrum, Bryan G. Cook, Melody Tankersley, 2014-08-26

Teachers report being unprepared for the difficult behavior they encounter in classrooms, and administrators find themselves under increasing pressure to maintain safe and orderly schools. IDEA regulations have also resulted in ongoing confusion about how schools can and should discipline students with identified disabilities.

Handbook of Emotional and Behavioural Difficulties Peter Clough, 2005

The book reveals itself to be both a scholarly and practical resource that will be indispensable to anyone seeking insight and direction for understanding and responding to EBD in the 21st century.
