Fostering Teachers' Language Assessment Literacy: Theory & Practice Giraldo, Frank, 2025-05-16. A major discussion in the field of language testing is language assessment literacy (LAL). The knowledge, skills and principles that stakeholders need to understand and act in language testing and assessment. Language teachers are central stakeholders in LAL because of their constant need to address assessment related activities. However, research has indicated that teachers are underprepared in LAL, so a recent call in the literature involves addressing this dimension of their teaching personas. *Fostering Teachers' Language Assessment Literacy: Theory & Practice* is a methodological handbook for teacher educators to design, implement and evaluate LAL courses for teachers. Among others, the book has these features: A comprehensive definition of teachers' LAL; A curriculum development framework covering stages such as course planning, materials development and instructional sequences; Numerous practical ideas to teach LAL to language teachers; Reflection and action points throughout each chapter in the book; Examples of materials for researching and teaching LAL, e.g. interview protocols and module samples; End of chapter exercises to further activate discussion and action around teachers' LAL. In all the book chapters, the author intends to make LAL understandable for readers, exploring it as both a theoretical framework and an action oriented pedagogy within applied linguistics.

Teaching Language and Literacy in the Early Years Diane Godwin, Margaret Perkins, 2013-01-11. The early years are increasingly recognized as a priority time for the education of children and language and literacy are key elements of any early childhood program. This second edition provides an accessible text on the current research and thinking surrounding these areas and demonstrates clearly how this theory can work in practice. The authors provide guidance on planning, assessment and recording, suggest appropriate activities, resources and play ideas to help those who work with or are planning to work within the foundation stage. The second edition includes specific reference to both the curriculum guidance for the Foundation Curriculum and the framework of teaching objectives for the National Literacy Strategy and

puts these within a framework which acknowledges the centrality of play and talk in the early years The book is firmly grounded in the requirements of the Foundation curriculum and is a suitable textbook for undergraduate early childhood courses all those following routes into early years teaching and existing practitioners in all types of early years settings The book will also be appropriate reading for LEA advisers and those who inspect early years settings
