Value Stream Management Don Tapping, 2002-05-06 The Value Stream Management System simplifies the planning process for lean implementation ensuring quick deployment and greater success It links the metrics and reporting required by management with the lean tools needed on the manufacturing floor The central feature of this illustrative and engaging book is the value stream management storyboard a tool representing an eight step process for lean implementation The storyboard brings together people tools metrics and reporting into one visual document The authors stress the importance of reaching beyond single point kaizens to ensure a sustainable lean implementation process Many people use the value stream map as an individual tool but not within the context of a proven overall system Value Stream Management Eight Steps to Planning Mapping and Sustaining Lean Improvements shows you how to use mapping as part of a complete system for lean

implementation The final outcome of Value Stream Management is the creation of a complete visual plan for lean transformation and the mastery of the skills required to implement that plan Instead of just using Toyota Production System Tools the authors encourage you to create your own lean production system Value Stream Management will help you to complete your process and sustain it Along with this book you receive downloadable resources containing a lean assessment tool a storyboard template useful charts a team charter forms reports and worksheets **Strategic Planning** John C. Wills,1997 As part of the ASTD Trainer s Sourcebook Series this volume presents complete tool kits and instructions for creating effective personalized training programmes This text concentrates on strategic planning Surveys games and role plays are covered in here with complete instructions on set up handling the activity and participant handouts Full illustrations of training steps such as trainer openings discussion questions and skill practices are also incorporated
