The Ultimate Guide to Building & Managing the Perfect Team Aiden Sisko, 2016-01-22 EXCERPT

Successful team building will lead to a firm structure that is full of trust maturity and respect between employees members no matter the rank Team building is like the basic family unit in which the father knows best and the children follow guidance from the parents In this case management of teams will greatly rely on your leadership and skills in team coaching guidance and motivation As we all know the family follows the leader and as such the leader must show great leadership skills as well as mentorship in order to build a conducive team spirit This model can likewise be replaced with a more adult

collaborative model that holds each team member responsible for their actions as well as respecting these actions
