How the Page Matters Bonnie Mak, 2011-01-01 From handwritten texts to online books the page has been a standard interface for transmitting knowledge for over two millennia It is also a dynamic device readily transformed to suit the needs of contemporary readers In *How the Page Matters* Bonnie Mak explores how changing technology has affected the reception of visual and written information Mak examines the fifteenth century Latin text *Controversia de nobilitate* in three forms as a manuscript a printed work and a digital edition Transcending boundaries of time and language *How the Page Matters* connects technology with tradition using innovative new media theories While historicizing contemporary digital culture and asking how on screen combinations of image and text affect the way conveyed information is understood Mak's elegant analysis proves both the timeliness of studying interface design and the persistence of the page as a communication mechanism

Beauregard, 2015-11-03 City and regional planners talk constantly about the things of the world from highway interchanges and retention ponds to zoning documents and conference rooms yet most seem to have a poor understanding of the materiality of the world in which they are immersed Too often planners treat built forms weather patterns plants animals or regulatory technologies as passively awaiting commands rather than actively involved in the workings of cities and regions In the ambitious and provocative Planning Matter Robert A Beauregard sets out to offer a new materialist perspective on planning practice that reveals the many ways in which the nonhuman things of the world mediate what planners say and do Drawing on actor network theory and science and technology studies Beauregard lays out a framework that acknowledges the inevitable insufficiency of our representations of reality while also engaging more holistically with the world in all of its diversity including human and nonhuman actors alike
