Secular Schooling in the Long Twentieth Century? Merethe Roos, Johannes Westberg, Henrik Edgren, 2024-09-23 The twentieth century process of secularization does not mean that institutional church and Christian ideas were irrelevant for twentieth century societal projects such as the

introduction of democracy the improvement of school and education the framing of national identities or in the establishment of welfare states On the contrary this publication is built on the presupposition that secularization runs parallel with the sacralization of the state It can be argued that Christianity has been decisive for how the modern European society evolved in the twentieth century e g concerning how Christian history and Christian values were a part of the new national and social imaginary where re enchantment and re sacralization of the state were central elements In this publication the aim is to highlight the role of Christianity in the twentieth and twentyfirst century welfare state modernization process with the focus on schooling and education A central perspective is the impact of cultural Protestantism during the twentieth century The publication is comparative and will investigate education in Norway Sweden and the Netherlands via chapters on curriculums textbooks politicians and political debates

Six Stages on the Spiritual Path Ruth Whitney,2021-05-21 In *Six Stages on the Spiritual Path* we learn about spirituality and its stages as well as how spirituality helps to reduce our suffering and create more love Writings from ancient to contemporary mystics across the world provide us with practical and spiritual wisdom that will make our lives happier and more loving In the first stage on the mystic way children experience awe and wonder but they do not realize that this is a spiritual experience While all indigenous people recognize awe as a mystical experience only some adults and most artists do When parents and religious leaders teach children about God they cause their spiritual growth to flourish or to become stunted at an elementary school level Awakening is an experience of the Divine that helps us realize that the Sacred Spirit is within us and loves us Awakening produces love for our neighbors and ourselves Then love nurtures more awakenings Illumination and union are deeper mystical experiences that the Holy One is not only within all of us and all of creation but also that we are within the ONE Illumination creates more love for all people and all the universe

Religion, Culture and Politics in the Twentieth-Century United States Mark Hulsether,2007-05-31 Anyone who seeks to understand the dynamics of culture and politics in the United States must grapple with the importance of religion in its many diverse and contentious manifestations With conservative evangelicals forming the base of the Republican Party racial ethnic communities often organised along religious lines and social political movements on the left including major religious components many of the country s key cultural political debates are carried out through religious discourse Thus it is misleading either to think of the US as a secular society in which religion is marginal or to work with overly narrow understandings of religion which treat it as monolithically conservative or concerned primarily with otherworldly issues In this volume Mark Hulsether introduces the key players and offers a select group of case studies that explore how these players have interacted with major themes and events in US cultural history Students in American Studies and Cultural Studies will appreciate how he frames his analysis using categories such as cultural hegemony race and gender contestation popular culture and empire

Key Features Provides a concise introduction to the field Balances a stress on religious diversity with attention to power conflicts within multiculturalism Dramatizes the internal complexity and dynamism of religious communities Brings religious issues into the field of cultural studies building bridges that can enable more informed and constructive discussion of religion in these fields Provides an integrated view of religion and its importance in recent US history
