## **Sketches Of Urban And Cultural Life In North America:**

Sketches of Urban and Cultural Life in North America Friedrich Ratzel, 1988 *Life, Earth, Colony* Ian

Klinke, 2023-08-23 *Life Earth Colony* explores the ideas life and historical significance of German zoologist turned geographer Friedrich Ratzel 1844 1904 famous for developing the foundations of geopolitical thought Ratzel produced a remarkable body of work that revolutionized the study of space movement colonization and war He also served as a source of intellectual inspiration for national socialism particularly through his Lebensraum living space concept which understood all life as being caught in an eternal struggle for space This book closely analyzes this radical conservative intellectual focusing on his often overlooked ethnography biogeography travel and creative writing and colonial activism as well as his more widely known political geography *Life Earth Colony* finds that there is an as yet unexplored necropolitical impulse at the heart of Ratzel's entire oeuvre a preoccupation with death and dying which had a profound impact on twentieth century history **Prisons,**

**Asylums, and the Public** Janet Miron, 2011-03-05 The prisons and asylums of Canada and the United States were a popular destination for institutional tourists in the nineteenth century Thousands of visitors entered their walls recording and describing the interiors inmates and therapeutic and reformatory practices they encountered in letters diaries and articles Surprisingly the vast majority of these visitors were not members of the medical or legal elite but were ordinary people *Prisons Asylums and the Public* argues that rather than existing in isolation these institutions were closely connected to the communities beyond their walls Challenging traditional interpretations of public visiting Janet Miron examines the implications and imperatives of visiting from the perspectives of officials the public and the institutionalized Finding that institutions could be important centres of civic activity self edification and scientific study *Prisons Asylums and the Public* sheds new light on popular nineteenth century attitudes towards the insane and the criminal **The Trickle-Down**

**Delusion** John Seip, Dee Wood Harper, 2016-05-02 From inside the book Since 1980 the economy has been growing and productivity has been growing but trickle down values that we the American people promote pursuant to the Republican Party's conservative ideology have rigged the economy to continuously upwardly redistribute those revenues attributable to our increased productivity yielding a productivity wage disconnect resulting in increased concentration of income and wealth at the top in corporations and among older Americans beneficiaries of income from Social Security pensions and investments and continuing income due to delaying retirement and the lowest percentage of GDP attributable to wages and highest attributable to profits since World War II But trickle down has not only distorted our economic thought it has also distorted our political thought our sociology and our concept of the rule of law The result has been that the trickle down policies promoted by the Republican Party are undermining our economy democracy institutions and health For further discussion contact author at johnjseip@gmail.com [German Expansionism, Imperial Liberalism and the United States, 1776-1945](#)

Jens-Uwe Guettel, 2012-12-17 This book traces the importance of the United States for German colonialism from the late

eighteenth century to 1945 focusing on American westward expansion and racial politics Jens Uwe Guettel argues that from the late eighteenth century onward ideas of colonial expansion played a very important role in liberal enlightened and progressive circles in Germany which in turn looked across the Atlantic to the liberal democratic United States for inspiration and concrete examples Yet following a pre 1914 peak of liberal political influence on the administration and governance of Germany's colonies the expansionist ideas embraced by Germany's far right after the country's defeat in the First World War had little or no connection with the German Empire's liberal imperialist tradition for example Nazi plans for the settlement of conquered Eastern European territories were not directly linked to pre 1914 transatlantic exchanges concerning race and expansionism

**American Indians in the Lower Mississippi Valley** Daniel H. Usner, Jr., 1998-01-01 During the eighteenth and nineteenth centuries the Native peoples inhabiting the Lower Mississippi Valley confronted increasing domination by colonial powers disastrous reductions in population and the threat of being marginalized by a new cotton economy Their strategies of resistance and adaptation to these changes are brought to light in this perceptive study An introductory overview of the historiography of Native peoples in the early Southeast examines how the study of Native colonial relations has changed over the last century Daniel H Usner Jr reevaluates the Natchez Indians ill fated relations with the French and the cultural effects of Native population losses from disease and warfare during the eighteenth century Usner next examines in detail the social and economic relations the Native peoples forged in the face of colonial domination and demographic decline and he reveals how Natives adapted to the cotton economy which displaced their familiar social and economic networks of interaction with outsiders Finally Usner offers an intriguing excursion into cultural criticism assessing the effects of popular images of Natives from this region

*John Uri Lloyd* Michael A. Flannery, 1998 Historian Flannery offers a biography of pharmaceutical pioneer Lloyd 1849 1936 who was a phytochemical researcher pharmaceutical manufacturer teacher author library founder and a leader among both professional pharmacists and the sectarian medical practitioners known as eclectics Focuses on the Cincinnati area where the eclectics emerged with botanical remedies from natural sources in response to the harsh therapies of regular physicians Annotation copyrighted by Book News Inc Portland OR

1877 Michael A. Bellesiles, 2010-08-10 A powerful examination of a nation trying to make sense of the complex changes and challenges of the post Civil War era Carol Berkin author of *A Brilliant Solution* Inventing the American Constitution In 1877 a decade after the Civil War not only was the United States gripped by a deep depression but the country was also in the throes of nearly unimaginable violence and upheaval marking the end of the brief period known as Reconstruction and reestablishing white rule across the South In the wake of the contested presidential election of 1876 white supremacist mobs swept across the South killing and driving out the last of the Reconstruction state governments A strike involving millions of railroad workers turned violent as it spread from coast to coast and for a moment seemed close to toppling the nation's economic structure Celebrated historian Michael A Bellesiles reveals that the fires of that fated year

also fueled a hothouse of cultural and intellectual innovation He relates the story of 1877 not just through dramatic events but also through the lives of famous and little known Americans alike A superb and troubling book about the soul of Modern America William Deverell director of the Huntington USC Institute on California and the West A bold insightful book richly researched and fast paced Bellesiles vividly portrays on a single canvas the violent confrontations in 1877 Alfred F Young coeditor of Revolutionary Founders Rebels Radicals and Reformers in the Making of the Nation A wonderful read that is sure to appeal to those interested in the challenges of creating a post Civil War society Choice Sixty Miles From Contentment M. H. Dunlop,2019-07-11 Sixty Miles from Contentment is a revitalization of a pulsating American scene in the nineteenth century Drawing on the work of travel writers from America s own East Coast and from fourteen other countries it offers a witty and irreverent look at the wild Midwest in its heyday Nature, Culture, and Big Old Trees Kit Anderson,2010-06-04 Big old trees inspire our respect and even affection The poet Walt Whitman celebrated a Louisiana live oak that was solitary in a wide flat space Uttering joyous leaves all its life without a friend a lover near Groves and alleys of live oaks remain as distinctive landscape features on Louisiana s antebellum plantations while massive individuals still cast their shade over churches graveyards parks and roads Cajuns have adopted the Evangeline Oak as one of their symbols And the attachment that Louisianians feel for live oaks is equaled by that of Guatemalans for ceibas the national tree of Guatemala Long before Europeans came to the Americas the ceiba tallest of all native species was the Mayan world tree the center of the universe Today many ceibas remain as centers of Guatemalan towns spreading their branches over the central plaza and marketplace In this compelling book Kit Anderson creates a vibrant portrait of the relationship between people and trees in Louisiana and Guatemala Traveling in both regions she examined and photographed many old live oaks and ceibas and collected the stories and symbolism that have grown up around them She describes who planted the trees and why how the trees have survived through many human generations and the rich meanings they hold for people today Anderson also recounts the natural history of live oaks and ceibas to show what human use of the landscape has meant for the trees This broad perspective blending cultural geography and natural history adds a new dimension to our understanding of how big old trees and the places they help create become deeply meaningful even sacred for human beings **Views of the Americas** Encyclopaedia Britannica, Inc.,2012-04-01 Updated for 2012 and part of the Britannica Learning Library Series in Views of the Americas you will learn about many of the countries and cities of North Central and South America **Dock Workers** Sam Davies,Colin J. Davis,David de Vries,Lex Heerma van Voss,Lidewij Hesselink,Klaus Weinbauer,2017-09-29 Workers who loaded and unloaded ships have formed a distinctive occupational group over the past two centuries As trade expanded so the numbers of dock labourers increased and became concentrated in the major ports of the world This ambitious two volume project goes beyond existing individual studies of dock workers to develop a genuinely comparative international perspective over a long historical period Volume 1 contains studies of 22 major ports worldwide Built around an agreed

framework of issues these port studies examine the type of workers who dominated dock labour their race class and ethnicity the working conditions of dockers and the role of government as employer arbitrator and supporter The studies also detail how dockers organized their labour patterns of strike action and involvement in political organizations The structure of the port city is also outlined and descriptions given of the waterside environment These areas of investigation form the basis for a series of 11 thematic studies which comprise Volume 2 Drawing on the information provided in the port studies these essays identify important aspects and recurring themes and explain how and why particular cases diverge from the rest The final chapter of the book synthesizes the various approaches taken to offer a model which suggests several configurations of dock labour and presents suggestions for future research This major scholarly achievement represents the most sustained attempt to date to provide a comparative international history of dock labour An annotated bibliography completes this essential reference work

**Cross-Cultural Issues in Art** Steven Leuthold, 2010-12-16 This book provides an engaging introduction to aesthetic concepts expanding the discussion beyond the usual Western theorists and Western examples

**Images of the American City** Anselm L. Strauss, 2017-09-08 Originally published in 1961 Images of the American City examines how Americans dealt with the rapid shock of urbanization as it evolved from an agricultural nation Working from the framework of a social psychologist Anselm L Strauss offers a deeper look into the sociological psychological and historical perspectives of urban development He describes how the cultural changes of a space ultimately develop urban imagery by looking towards the urbanization of America from peoples views of the cities rather than how the cities are themselves Urban imageries are contrasted with the context of an ideal city and visitors perspectives of cities Strauss takes a step back to ask questions about what Americans think and have thought of their cities How do these cities compare to the image of an ideal city What are the different perspectives between a city dweller and a visitor He contrasts the tension between those within the city and those outside of its urban limits Strauss describes how space and time are major themes in the symbolic urbanization of a city He offers a macroscopic view of the city as a whole and shows how urban imageries evolved from changes in lifestyles He then provides historical breakdowns of different regions of the country and how they were urbanized This book documents and illustrates the change in American symbolization from the growth of American cities to the union of urbanity and rurality

**Yearbook of German-American Studies**, 1990 **Urban Geography, 2nd Edition** Tim Hall, 2002-01-04 This text introduces both traditional and contemporary approaches and perspectives in urban geography This substantially revised edition of Urban Geography now features updates on recent urban policy initiatives and urban changes including the influence of CCTV on the city and the impacts of Millennium projects New sections contain an evaluation of the impact of place promotion a discussion of new cultural geography and the city a new chapter on sustainable urban development boxed case studies further reading suggestions extensive illustrations

**Critical Terms for Art History, Second Edition** Robert S. Nelson, Richard Shiff, 2010-03-15 Art has always been contested terrain whether the object in

question is a medieval tapestry or Duchamp's Fountain. But questions about the categories of art and art history acquired increased urgency during the 1970s when new developments in critical theory and other intellectual projects dramatically transformed the discipline. The first edition of *Critical Terms for Art History* both mapped and contributed to those transformations offering a spirited reassessment of the field's methods and terminology. Art history as a field has kept pace with debates over globalization and other social and political issues in recent years making a second edition of this book not just timely but crucial. Like its predecessor this new edition consists of essays that cover a wide variety of loaded terms in the history of art from sign to meaning ritual to commodity. Each essay explains and comments on a single term discussing the issues the term raises and putting the term into practice as an interpretive framework for a specific work of art. For example Richard Shiff discusses Originality in Vija Celmins's *To Fix the Image in Memory* a work made of eleven pairs of stones each consisting of one original stone and one painted bronze replica. In addition to the twenty-two original essays this edition includes nine new ones performance style memory monument body beauty ugliness identity visual culture visual studies and social history of art as well as new introductory material. All help expand the book's scope while retaining its central goal of stimulating discussion of theoretical issues in art history and making that discussion accessible to both beginning students and senior scholars.

Bhabha, Suzanne Preston Blier, Michael Camille, David Carrier, Craig Clunas, Whitney Davis, Jas Elsner, Ivan Gaskell, Ann Gibson, Charles Harrison, James D. Herbert, Amelia Jones, Wolfgang Kemp, Joseph Leo Koerner, Patricia Leighton, Paul Mattick Jr., Richard Meyer, W. J. T. Mitchell, Robert S. Nelson, Margaret Olin, William Pietz, Alex Potts, Donald Preziosi, Lisbet Rausing, Richard Shiff, Terry Smith, Kristine Stiles, David Summers, Paul Wood, James E. Young. Whitaker's Book List, 1989. **Art and the Empire City** Metropolitan Museum of Art (New York, N.Y.), 2000. Presented in conjunction with the September 2000 exhibition at the Metropolitan Museum this volume presents the complex story of the proliferation of the arts in New York and the evolution of an increasingly discerning audience for those arts during the antebellum period. Thirteen essays by noted specialists bring new research and insights to bear on a broad range of subjects that offer both historical and cultural contexts and explore the city's development as a nexus for the marketing and display of art as well as private collecting: landscape painting viewed against the background of tourism; new departures in sculpture, architecture and printmaking; the birth of photography; New York as a fashion center; shopping for home decorations; changing styles in furniture and the evolution of the ceramics, glass and silver industries. The 300-plus works in the exhibition and comparative material are extensively illustrated in color and bandw.

Oversize 9 25x12 25. Annotation copyrighted by Book News Inc. Portland, OR. **Atlas of World Art** John Onians, 2004. Combines a survey of world art with maps showing the associations and dissemination of culture across the globe.
